GOVERNMENT OF INDIA, MILITARY DEPARTMENT.

Simla, the 11th October 1883.

I am directed to acknowledge the receipt of your letter No. * * * * soliciting the orders of the Government of India on the question whether, under the present system of decentralization of finance and the debiting of charges to appropriate heads of account, an appropriate charge should not be debited to the Military Department when grass preserves are made over rent-free to the cavalry * * * *

2. In reply, I am to inform you that the Government of India have decided that * * * * * * as a general rule the Military Department should not be required to pay for any land, already the property of Government, required permanently or temporarily by that Department. If, however, the land required is not wholly the property of Government, then the Military Department should pay the cost of compensating the owners or others interested in it. If a question arise in any case regarding compensation to a Local Government for loss of revenue, the question of the adjustment between Imperial and Provincial Governments can be settled on its merits.

3. In cases where the land has always been held rent-free, any claim to compensation by the Local Government is barred by clause 10, Rule 1, published with the Resolution by the Financial Department, No. 1709, dated the 22nd March 1877.

Correction Slip No. 69 to Circular 55.

Make the following correction and addition :—

APPENDIX XIII.

CORRECTION.

Part A.

1 (*b*) second line, for "quarter" read "quarter or quarters."

ADDITION.

At end of Appendix XIII add following note of instructions :—

Part A.

(1) Includes also principal and interest in arrears.

2 (*a*) should equal 2nd entry in Part B.

2 (*b*) as adjustment of interest recoveries is not always promptly made, and, as therefore this entry must sometimes include sums recovered in quarters other than that immediately preceding the quarter under report, it should always be noted by Deputy Commissioners of what quarter or quarters the recoveries are included in that entry. This will save much correspondence and labour both in this and in District Offices.

3 (*a*) and 3 (*b*) include principal and interest. They should respectively tally with entries (7) and (9) of Part C.

4. This entry should agree with the result arrived at in Part D. If there is any discrepancy, it should be explained.

Part B.

No instructions are needed as to the manner in which the entries in this Part should be filled in.

Part C.

(1) This should equal entry (10) of the return of the previous period, and will thus as well as entry (4), include interest overdue.

(2) This includes not only instalments (principal and interest) originally set down as recoverable in the period under report, but also sums recoverable *during the said period* in consequence of suspensions having been made. In fact this entry includes all sums originally set down for recovery in the period under report;* arrears proper—see entry (1)—being sums overdue, not under formal suspension and demandable at any time. Sums suspended and not demandable *until a date after the end of the period under report* should find no place in Part C.

Entry (5) should include actual collections of that portion of the demand which is entered in (2) as explained above.

Entry (6) according to circumstances may or may not include interest.

Entries (8), (9) and (10) include principal and interest due.

Entry (10) should be the same in nature and amount as the first entry in Part D.

Part D.

The first entry agrees with entry (10) of Part C. The second entry must show principal and interest of all future instalments, that is, both of instalments originally set down for future recovery and of sums which are in consequence of formal suspension demandable after the last day of the period under report and not sooner.

PUNJAB TEXT-BOOK COMMITTEE.

ENGLISH SUB-COMMITTEE.

Proceedings of a Meeting held in the Committee Room on Tuesday, 16th June, 1891 *at* 5 P. M.

PRESENT:

Revd. Dr. Ewing, *in the Chair.*

F. Haden Cope, Esq., M.A.

Bábu Chandra Náth Mitra.

Lála Rám Kishen, Registrar, Education Department.

W. Bell, Esq., M.A., *Secretary.*

1. *Notes on the High School Reader.*—Mr. Robertson had prepared and published a set of notes to accompany his *High School Reader*, and requested the Committee to say whether they should continue to be issued separately from the Reader or should be embodied either in their present complete form or after being condensed. The members present looked over the notes, and it was finally resolved—

(1) That, in view of various objections put forward, action be deferred until such time as further opinions have been received, and that copies of the *Notes* be purchased and circulated amongst members, school managers, and teachers using the *High School Reader*:

(2) That this Sub-Committee is of opinion that the notes should form part of the Reader and should be embodied in the second edition. Further, that less space should be given to mere synonyma and more space to notes that are really explanatory. Further, that the Sub-Committee does not bind itself to approve of the *Notes* in any form until after full consideration of the opinions to be called for in terms of the previous resolution.

The price of the book would be considered at a future meeting: that fixed by the publishers (one rupee) seemed too high.

The Secretary was directed to enquire from the Director of Public Instruction whether it was his desire that the English Course of the Calcutta University should not continue to be an optional course of reading in High Schools. At present it is read in certain schools.

The Secretary was also directed to enquire from Mr. Robertson what steps he had taken for the preparation of an improved second edition of his *High School Reader.*

2. *Nesfield's English Readers.*—This series had been very carefully and fully reported on by various members and by the staff of the Central Training College. It was generally agreed that the books had been prepared with great care, but that they were not suited for introduction into the scheme of studies, owing partly to the elaborate and undesirable glossaries, and partly to the introduction of passages of a distinctly doctrinal character. They did not seem, moreover, to be superior to the books already in use, and would not readily fit into the Punjab scheme of school organization.

3. *Development of Vernacular Literature.*—The Secretary had called for lists of books suitable for adaptation and translation, and those received were considered. Mr. Oman had submitted an important memorandum on the whole question; it was resolved that it should be printed and sent up to the General Committee for disposal.

From—J. CAMPBELL OMAN, Esquire, Member, Text-Book Committee,

To—W. BELL, Esquire, Secretary, Text-Book Committee.

In reply to your letter No. 7 C. M. of the 17th ultimo, I have the honor to say that in my opinion the highly important object of developing the vernacular literature of this Province would be better served by encouraging the preparation of *original* works in their mother tongue by natives well acquainted with English than by the mere translation into the vernacular of foreign books, though there are, of course, many such which might profitably be placed within the reach of Indian readers unacquainted with English. I lay special stress on the desirability of encouraging *original* work, as it seems to me that by so doing the Committee would assist materially towards the creation of a class of writers—at present much needed in the Province—in whose hands the future of vernacular literature would eventually rest.

In the present backward state of popular education in the Punjab it is very desirable that books produced at the expense of the public revenues should be suitable for the great mass of the common people, who badly need to be enlightened on many subjects of the greatest interest and importance. It is not, I think, English literature, or any adaptation of English literature, that is most wanted in the Punjab at the present time, but knowledge, that is *facts*, about many *very ordinary matters* regarding which the grossest ignorance prevails amongst perhaps 95 per cent of the population of the Province. The information offered to the people, if it is to be of use to them, must be accurate, must be within the scope of their understanding, and, at the same time, must be presented in a simple and agreeable form. It appears to me that under existing conditions a popular account of Her Majesty's vast and varied dominions, *fully and well illustrated*, as regards scenery, cities, men and manners, plants and animals, leading industries and natural productions, would be a worthy and most desirable work for the Committee to undertake. It might be somewhat expensive on account of the illustrations; but special assistance could, perhaps, be got for a publication of such a kind, and there would be no difficulty about issuing it in parts at convenient intervals of time. I cannot think of a more useful and appropriate gift to the people of the Punjab, at this time, than the important work I now recommend, about the preparation of which there need be no special difficulty, if only the funds are forthcoming. Such a book would be eagerly welcomed, if only for its interesting and instructive pictures, in every house and cottage in the country, and would undoubtedly do an immense amount of good. The educational value of pictorial illustrations in every department of knowledge is obvious, and I think it should now be recognised by the Text Book Committee that an establishment for the production of really good, high-class wood engravings, in this Province, is *simply indispensable* for the proper execution of the work entrusted to the Committee.

Many of our educated natives would be glad to lend a hand in the preparation of the book I now recommend, and the Mayo School of Art may be depended upon to assist heartily in the production, as far as may be possible, of the pictorial portion of such a work.

The Secretary was directed to thank Mr. Oman for his suggestion, to inform him of the Sub-Committee's general approval of it, and to ask whether he would undertake to edit a work of the kind proposed and on what terms, provided that the General Committee should resolve to prepare the book.

FINANCIAL COMMISSIONER'S OFFICE.

CIRCULAR No. 7 OF 1891.

FINANCIAL COMMISSIONER'S OFFICE,

Dated Lahore, 22nd June 1891.

To

ALL COMMISSIONERS, DEPUTY COMMISSIONERS AND SETTLEMENT COLLECTORS.

Instructions for guidance of Settlement Officers as regards their Personal Ledger Accounts.

AN enquiry recently made as to the nature of the fees shown in a statement of receipts and disbursements of settlement deposit accounts furnished to Government by the Accountant-General brought to light considerable irregularities as regards the items credited in the Settlement Officer's personal ledger, and showed that some officers had apparently failed to pass definite orders at the close of settlement operations as to the disposal of all items included in the account.

2. The settlement deposit is now of far less importance than it was in 1879, when the Settlement Commissioner issued elaborate instructions as to the manner in which the accounts relating to it should be kept (Settlement Commissioner's Circular No. 80 of 1879). Many important items, *e.g.*, patwári cess and mutation and settlement parcha fees, which were then credited to it, are now excluded from it. The chief items of receipt which should now appear in a Settlement Officer's personal ledger are costs realized in revenue, and especially partition, cases when these cannot be disbursed immediately on receipt. A few items of a miscellaneous character may also be paid into it. For example, if landowners neglect to put up proper trijunction pillars of the kind described in Chapter XI of Part II of the rules under the Land Revenue Act, the Settlement Officer may find it necessary to have the work executed under his own orders. In such a case there is no objection to his advancing the requisite funds from his settlement deposit, and recovering the amount afterwards from the landowners. Such recoveries would of course appear on the credit side of the personal ledger.

3. It is a matter of importance that all sums paid by outlying settlement offices or private persons into tahsíl treasuries for credit to the settlement deposit should be reported at short intervals, say weekly, to the Sadr Office, otherwise the Settlement Officer's nazir cannot keep up his deposit account properly. A register of daily receipts will of course be maintained in each subordinate Settlement Office and abstracts of this should be forwarded weekly to the nazir of the Sadr Office. Tahsíldárs may also be required to furnish weekly lists of payments made into the tahsíl treasury. No sums can be drawn from deposit except on cheques signed by the Settlement Officer. The head clerk of the Settlement Office should compare monthly the nazir's account with the personal ledger account kept up by the Treasury Officer.

4. No sum should be kept in deposit any longer than is really necessary. As soon as possible it should be expended on the object for which it was realized, repaid to the person from whom it was recovered, or credited to Government, as the case may be. When a settlement is finished the balance should usually be very small. The sums realized as costs in all revenue cases that have been decided must have been disbursed or returned to the parties. Costs on account of undecided revenue cases will be transferred to the office to which the cases are transferred. Any balance which ought not to be disposed of in this way will be credited to Government.

CIRCULAR LETTER No. 4147 OF 1891.

FINANCIAL COMMISSIONER'S OFFICE,

Dated Lahore, 2nd July 1891.

To

ALL COMMISSIONERS AND DEPUTY COMMISSIONERS IN THE PUNJAB.

THE opinions received from District Officers and Commissioners as to the necessity or otherwise of legislation to legalize the impressment of labour for the destruction of locusts have been considered by the Financial Commissioner and

by Government, and it has been decided that at present there is no necessity for such legislation. It seems extremely doubtful whether there is any part of the Punjab where, if a proper organization is adopted, the services of all officials, zaildárs, inámdárs and village headmen being fully utilized, and a fair distribution of the burden between different villages and different classes of the population made, the Deputy Commissioner will be unable to secure the co-operation of the people generally in the work.

Although locusts are now disappearing from many districts, it is quite possible that they may return and lay their eggs within the Province, or that the frontier districts may again be invaded by swarms hatched in the hills beyond the border. In every district an organization should be ready *beforehand* to secure—

(1) that the laying and hatching of eggs shall be reported without delay ;

(2) that measures shall be taken promptly for the destruction of eggs and of the young grubs when hatched.

Nothing better than the existing organization of estates, patwárís' circles, zails and kánúngos' circles could probably be devised. Where there are no zaildárs, inámdárs or other men of local influence should have circles of villages allotted to them. The village headmen should report the appearance of locusts, laying of eggs, and hatching of young at once to the patwári and zaildár or inámdár, and the patwári should report at once to the field kánúngo and Tahsíldár or Náib-Tahsíldár. As regards the work of destruction, the Tahsíldár and Náib-Tahsíldár will be responsible within their respective inspection circles (L. R. Rules, Part I, Rule 139) for seeing that zaildárs and headmen, and the villagers working under them, do their duty, and when necessary act in concert with the zaildárs, headmen and villagers of other circles. When eggs are hatched, the young locusts should be attacked and followed up till destroyed, not merely by the men of the estate in which they first appear, but by gangs collected from the surrounding villages and working together. Arrangements should be made for relieving persons who have worked their fair turn and replacing them by others. Field kánúngos may appropriately be employed as supervising officers within their circles, but the Financial Commissioner thinks that it will be best not to use patwárís to superintend the headmen, but only as the medium for reporting information. The above instructions have purposely been made of the most general character. Every District Officer must of course adopt any measures which the special circumstances of his district render necessary to secure the end in view.

The 7th July 1891.

No. 148.—*Notification.*—The following draft rules under Section 141 of the Punjab Land Revenue Act, 1887, prepared by the Financial Commissioners, together with a statement of reasons for the same, are published for information in accordance with the provisions of Section 156 of the same Act, and, in accordance with Section 6 of the General Clauses Act, 1887, it is hereby notified that the draft will be taken into consideration after the 10th day of September 1891 :—

DRAFT RULES.

1. When the produce of any land has been attached in pursuance of an order for its attachment and sale addressed to the Collector by a Civil or Criminal Court, the Collector shall direct that an appraisement of the attached produce be made by a revenue officer or by the kánúngo of the circle in which the land is situated. The produce shall not be sold until the appraisement has been approved by the Collector or by a revenue officer appointed in that behalf by the Collector.

2. Sales of the produce of land shall be made by a revenue officer or by the field kánúngo of the circle in which the land is situated. When the sale is made by the kánúngo it shall be carried out in presence of a zaildár, inámdár, or village headman appointed in that behalf by a revenue officer.

The field kánúngo shall be entitled to a commission of 5 per cent. on the sale proceeds.

3. When produce sold by a kánúngo consists of moveable property, such as crops that have been reaped, the purchase money shall not be received, nor shall the sale become absolute, until the sale has been confirmed by the Collector, or by a revenue officer named by the Collector. When the produce sold by a kánúngo or revenue officer consists of immoveable property, such as standing crops, sold under orders of a Civil Court, Section 314 of Act XIV of 1882 (the Civil Procedure Code) will apply.

Statement of Reasons.

Experience has shown that the rules contained in paragraph 45 of Judicial Circular No. XXVII may lead to a miscarriage of justice when the property to be sold consists of the produce of land.

Senior Secretary to Financial Commissioner, Punjab.

PUNJAB PUBLIC LIBRARY.

III.—MEETING, 1891.

A MEETING of the Committee of the Punjab Public Library was held in the Library on Saturday, the 4th July 1891, at 6 P. M.

There were present :—

The Hon'ble W. H. Rattigan, LL.D., President (in the Chair).
M. A. Stein, Esquire, PH. D.
Pandit Jawála Datta Parsháda, Goswámi.
Dr. Brij Lál Ghose, Rái Bahádur.

1. The accounts for May and June were examined and passed.

2. The Committee regretted to find that Mr. Christie, District Superintendent, Police, had ignored seven communications from the Library requesting him to return the books taken out by him in December 1889. The Secretary was, therefore, directed to inform Mr. Christie by registered letter that if the books were not returned within 10 days of receipt of the above communication, he would be handed up and such other proceedings taken as might be considered necessary.

3. *Read* letter dated 3rd June from Muhammad Ibráhím, stating that his father Maulvi Muhammad Husain Azád, denied ever having received any books from the Punjab Public Library for the Azád Library. It was ordered that Muhammad Ibráhím be informed that the Committee look to him to surrender the books and that if they are not given up within a short time, proceedings will be taken to recover the property (paragraph 2 of Committee Proceedings, No. II of 1891).

4. Payment of the annual fire insurance premium, when due, was ordered. The Secretary was at the same time directed to report what the premium for assuring the sum of Rs. 40,000 would be.

5. It was ordered that the copies of the Journal of the Asiatic Society, Bengal, in the Library be completed ; and that the Journal be taken in for the Library.

6. The nomination of Dr. M. A. Stein as member of the Punjab Public Library Committee on behalf of the Punjab University in succession to Mr. Robertson, resigned, was recorded.

7. Dr. Stein having reported that the outside value of the Oriental MSS. offered by Lála Shiv Diál, M.A., as an equivalent for the donation for life membership was not more than the donation for a life subscriber, it was resolved that the Lála be informed that the Committee is willing to enrol his name as a life subscriber in return for the books.

8. *Ordered* that applications for books to be lent out presented one hour before the time fixed for closing of the Library, morning and evening, should not be received.

9. The following donations were reported and acknowledged with thanks:—

Colonel C. E. Shepherd	...	1 Vol.
Pandit Jawála Datta Parsháda, Goswámi	...	5 Vols.
Pandit Telu Rám	...	1 Vol.
Munshi Ghulam Nabi through Mr. Ryan	...	1 Vol.

Maulvi Inám Ali, B. A.

New annual subscribers.

Mr. T. A. Brooks.

Lála Harkishen Lál, B. A., Barrister-at Law.

PUNJAB TEXT BOOK COMMITTEE.

URDU SUB-COMMITTEE.

Proceedings of a Meeting held in the Committee Room on Thursday, 18*th June* 1891, *at* 5 P. M.

PRESENT:

1. Maulavi Muhammad Dín, M. O. L., *in the Chair.*
2. W. Bell, Esquire, M. A., Secretary.

1. *Urdu copy-books.*—It had been resolved, after reference to the Director of Public Instruction and the Educational Conference, to take steps for the improvement of the teaching of Urdu caligraphy in schools by the introduction of a set of improved copy-books. These had been prepared in the Central Training College, and were now before the meeting in manuscript, along with a letter from the Principal setting forth the plan of the series. Maulavi Muhammad Dín, M. O. L., thought some reference should be made to the old system, of indicating the size of the letters by *nuktas*, and it was decided that, after referring the matter to him, proofs of the series should be arranged for and circulated.

2. *Mazámín-i-Akhláqi*, by Munshi Rám Sahái, Tamauna, Lucknow.—Rejected as not calculated to serve any of the purposes of the Text Book Committee.

3. *Quwat-i-Kahrubái*, being a translation of Professor Tyndall's Elementary Lessons in Electricity, by Pandit Telu Rám, Railway Technical School, Lahore.—The translation was reported on as well done. It was resolved to purchase 250 copies of the book at 8 annas per copy (subject to discount) for distribution among the Middle and High Schools of the Province.

4. *Ujra Gaon*: "The Deserted Village" rendered into Urdu verse by Lála Mani Dhar of the Accountant-General's Office, North-Western Provinces and Oudh.—This was rejected, as the book is without merit either as a translation or as a poem.

5. *Rasála-i-Zewar-i-Hayát*, by Munshi Rám Sahái, Tamauna, of Lucknow.—Both the style and the language of this book are unsatisfactory; it was, therefore, rejected.

6. *Qawáid-i-Urdu Navísi*, by the same.—A book without method of any kind. The author gives many rules for Urdu composition, but does not practise them.

7. *Nazm-i-mufíd-ul-tarkíb*, by the same.—The title of this book gives no indication of its subject. It does not deal with parsing and analysis, but consists largely of doggerel verses on disconnected topics.

8. *Muraqqo'-i-Tahzíb*, by M. Muhammad Bilal of Kálka Board School.—The style of Urdu poetry prescribed for imitation in this book is bad; the language is frequently defective; while the tone is often sectarian and, on moral grounds, open to serious objection. The book was rejected.

9. *Hasan*, an Urdu monthly journal: edited by Nawáb Imád Nawáz Jang Bahádur, Hyderabad, Deccan.—This publication had already been considered and disposed of by the Sub-Committee on the 14th December 1889. The meeting adhered to the decision of that day.

10. At the request of the Secretary, Munshi Guláb Singh had submitted specimens of coloured paper which he thought suitable for covers of vernacular text books. They were examined by the Sub-Committee, and pronounced unsuitable in colour, quality and texture.

RAM KISHN,

Registrar, Education Department.

HINDI AND SANSKRIT SUB-COMMITTEE.

Proceedings of a meeting held on Tuesday, the 23rd June 1891, *at* 5 P. M.

PRESENT:

M. A. Stein, Esq., PH. D., *in the Chair.*
Bábu Chandra Nath Mitra.
Pandit Bhanu Datt.
Pandit Rám Kishen.
W. Bell, Esq., M. A., *Secretary.*

1. *Hindi translation of Mrs. Steel's "Good House-Mother."*—The translation of the first part of this book had been completed in Hindi by Miss Bose, Victoria Girls' School. It had been very favourably reported upon, and portions were read to the meeting. The amount of revision necessary was so small that it was resolved to send the manuscript to the press, as it could be revised in proof. On the scale of remuneration fixed by the Registrar, Education Department (8 annas per page of the Urdu edition), Miss Bose would receive a reward of Rs. 44, and the Secretary was asked to pay this amount, subject to the sanction of the General Committee.

On the suggestion of the Chairman, the Secretary was directed to ask the printer to print the book from type. It was arranged in his last agreement that Hindí books might be so printed, and he ought, therefore, to provide himself with the necessary type.

2. *Hindí translation of Tariq-us-sihat* ("The way to health"), by Pandit Bhanu Datt.—This had been revised by Lála Jiya Rám, and afterwards Pandit Rám Kishen had, as directed, gone over it with a view to the elimination of difficult Sanskrit words. It was now passed by the Sub-Committee, who recommended an honorarium of Rs. 40, the translator to revise the proofs as well.

3. *Shabdárth Bhánú*: a Sanskrit-Hindustáni Dictionary, by Pandit Bhanu Datt.—This book is the property of the Department and a second edition is required. Dr. Stein submitted a report with suggestions for the improvement of the book, and this was adopted by the meeting. The Pandit was directed to cut out difficult Sanskrit glosses (which were useless) and mere synonyma, and to insert Hindí equivalents, where these were likely to be explanatory. He was directed also to insert the new material he had collected. Other changes could be made as the proofs were submitted to the Committee.

4. *Ashtánga Sungraha.*—It had already been decided that, as a work on medicine, the Committee was not competent to give any encouragement to this book, and Dr. Stein further reported that it had no philological value whatever.

5. *The Panchasiddhantika of Varahamihira*, an ancient work on astronomy, edited by Dr. Thibaut.—This is the *editio princeps* of an important astronomical treatise of Varáhamihira, which had till lately been considered lost. It derives its great value from the fact that it acquaints us very fully with the systems of not less than five still more ancient astronomical works, apparently lost for ever. Dr. Thibaut's edition has received the most unqualified praise from those best fitted to judge of its merits.

It was resolved to recommend that the Punjab Government should purchase 25 copies at Rs. 6-8-0 per copy for distribution to the chief educational institutions in the Province, including the University and the Punjab Public Library. This recommendation was made on the understanding that there were funds under the control of the Director of Public Instruction for the encouragement of works of sterling merit like the one concerned.

6. *Practical Sanskrit-English Dictionary*, by V. S. Apte, M. A., Principal, Fergusson College, Poona.—It was decided to recommend that 15 copies be purchased, at Rs. 7 per copy, by the Committee and distributed among schools where Sanskrit is taught; also that

it should be included in the list of books for High School Libraries. Dr. Stein reported that he considered the book the best Sanskrit-English Dictionary at present accessible to the Indian student, and that he would strongly recommend its supply to school libraries.

7. *Ujar Gaon* : a Hindí version of Goldsmith's "Deserted Village," by Pandit Sridhar Pathaka.—This translation, by a man of poetic ability, had been very favourably reported upon, and the portions read to the meeting were considered excellent. It was decided to purchase 50 copies at wholesale rates (the cost per copy not exceeding 8 annas) for distribution, and to place the book on the provisional list for Hindí School Libraries.

8. *Shiksha Manjari*, by Pandit Viswanath Brahamachari, Delhi.—This book is unsuited for schools.

9. *Prakrit Banjani*, by M. Jai Lál of Jhallawar.—The author suggests a new alphabet for Urdu. The book is curious, but useless.

10. *Manaw Dharma*, by Bábu Rám Naráin Singh, Head Master, Zilla School, Balia.—This book might be suited for certain religious schools, but could not be encouraged by the Committee.

11. *Sikhsha Bhavan*, by M. Baldeo Pershád, Vakil, Sitapur, Delhi; in three parts.—This had been unfavourably reported on by Dr. Ewing, more especially the moral portions, and was accordingly rejected.

No. 153.—*Notification.*—The following Rules made by the Financial Commissioner and sanctioned by the Government are hereby published in supersession of Rules 138, 139, 142 and 143 of the Rules under Section 46 of the Punjab Land Revenue Act, 1887, published in Punjab Government Notification No. 74, dated 1st March 1888 :—

138. For the purpose of inspection work and the attestation of mutation each tahsíl shall be divided between the Tahsíldár and Náib-Tahsíldár. This division shall be made by the Collector in July each year and shall hold good for the agricultural year following. And in order to maintain the Tahsíldár's responsibility, the portion of the tahsíl allotted to the Náib-Tahsíldár shall be changed every year.

141. In order to avoid summoning agriculturists from their villages, all revenue work, especially disputed partition, lambardári and revenue assignment cases, should, as far as possible, be dealt with by the Tahsíldár or Náib-Tahsíldár at the village to which it relates. By this means the presence of all parties interested will be secured and the facts bearing on each case will be easily ascertained.

But when the mutation work of any tahsíl is so heavy that the Tahsíldár or Náib-Tahsíldár cannot visit each village where mutations require attestation at least once a year without prejudice to the due performance of his other duties, the Deputy Commissioner may, at his discretion, allow some relaxation of the above orders, and may from time to time fix such place or places as he considers conveniently situated within each Patwári's circle for the attestation of mutations belonging to that circle. Civil cases should not ordinarily be set down for hearing on dates when a Tahsíldár or Náib-Tahsíldár is on tour.

Present Rules 140, 141, 144, 145 will be numbered 139, 140, 142 and 143 respectively.

Page 92, Circular 21. Add paras. 10 and 11 :—

10. One Assistant or Extra Assistant Commissioner is posted to every district, except Simla, as Revenue Assistant to the Deputy Commissioner. The Revenue Assistant will dispose of whatever share of magisterial work the Deputy Commissioner thinks proper to allot to him, but he must not be regarded as available for the charge of the treasury or for the duties of Subordinate Judge, and he should in no case be given more than a very small share of Civil Judicial work. He should devote the bulk of his time to the land revenue business of the district, that is to say, the business arising under the Land Revenue and Tenancy Acts, and to other cognate business, such as canal work in districts where canals are administered by the Deputy Commissioner.

11. A list of Extra Assistant Commissioners qualified for the duties of Revenue Assistants is printed in the monthly distribution list supplied to Commissioners. Commissioners may entrust any officer whose name appears in this list with the duties of Revenue Assistant, reporting the name of the officer selected to the Financial Commissioner and the Chief Secretary to Government for information. The concurrence of the Financial Commissioner should be obtained before any officer, whose name does not appear in the list referred to above, is appointed Revenue Assistant. In this case also the selection should be reported to the Chief Secretary to Government for information. When a district is under settlement the Extra Assistant Settlement Officer or other Extra Assistant specially deputed for settlement work is the Revenue Assistant for the time being. (See, however, the orders contained in para. 5 of Circular 19 regarding the distribution of business under the Land Revenue and Tenancy Acts in districts under settlement where a separate Settlement Collector is appointed. See also para. 2 of Circular 51 and addendum No. 159 thereto, which directs that an Assistant Commissioner or Extra Assistant Commissioner in charge of an out-post shall be the Revenue Assistant for such sub-division of the district.)

PUNJAB TEXT BOOK COMMITTEE.

Proceedings of the General Committee at a Meeting held in the Committee Room on Monday, 6th July 1891, *at* 7 A. M.

PRESENT:

Dr. J. C. R. Ewing, *in the Chair.*

Dr. M. A. Stein.

F. Haden Cope, Esquire, M. A.

J. Campbell Oman, Esquire.

Bábu Chandra Náth, Mittra.

Maulavi Muhammad Dín, M. O. L.

Pandit Bhanu Datt.

Bhái Gurmukh Singh.

Lála Rám Kishen.

W. Bell, Esquire, M. A., *Secretary.*

The Proceedings of the various Sub-Committees as detailed below were considered:—

English Sub-Committee, 9th April 1891.

Urdu	do.,	10th April 1891.
Hindi	do.,	11th April 1891.
Gurmukhi	do.,	29th April 1891.

Arabic and Persian Sub-Committee, 1st May 1891.

Technical Sub-Committee, 26th May 1891.

English	do.,	16th June 1891.
Urdu	do.,	18th June 1891.

Hindi and Sanskrit Sub-Committee, 23rd June 1891.

1. *English Sub-Committee, 9th April* 1891.—The Resolutions of that date were approved, with the exception that it was not necessary, as the Sub-Committee had thought, to proceed with the preparation of a new High School Reader

to complete the Punjab Series, as Mr. Robertson had apparently understood that his book would be used for a reasonable period. The Secretary was directed to inform Mr. Robertson that alternative series of Readers would always be gladly considered by the Committee, and that he should take immediate steps for the revision of the High School Reader.

2. *Urdu Sub-Committee*, 10*th April* 1891.—The work of this Sub-Committee was approved. The Secretary was directed to take immediate steps for the printing of the revised *Tála-ba-Qa'ida* and to ask Lála Ruchi Rám if he would undertake the preparation of the Elementary Agricultural Reader referred to in paragraph 11.

3. *Hindi Sub-Committee*, 11*th April* 1891.—The courses of reading and other recommendations were approved. Dr. Ewing proposed, and Dr. Stein seconded, that opportunity should now be taken, whenever possible, to print Hindi books from type, the lithographed text books issued by the Department being behind the times. It was thought immaterial whether 'Bombay type' or 'Benares type' was used : in elementary books the first requisite was boldness and distinctness.

4. *Gurmukhi Sub-Committee*, 29*th April* 1891.—The Proceedings of this Sub-Committee were approved with the modification that Miss Francis, Inspectress of Schools, be first asked to prepare the introductory manual of Domestic Economy. A resolution that Gurmukhi text books should be printed from type was also passed, and the question of Pandit Bhan Datt's honorarium for preparing the course of reading for the zamíndári class of Normal Schools was deferred.

5. *Arabic and Persian Sub-Committee*, 1*st May* 1891.—The recommendations of this Sub-Committee were approved, with the exception that the amount voted for 250 copies of the *Armaghán-i-Ahbab* was raised to Rs. 70. Bábu Chandra Náth objected to the teaching of Persian Grammar in Primary Schools on the ground that English Grammar was not similarly taught to beginners in English. The General Committee thought the Scheme of Studies in English might well be amended, so as to secure attention to Grammar from the first.

6. *Technical Sub-Committee*, 26*th May* 1891.—With regard to the illustrations for the Fourth Urdu Reader, the Secretary was directed also to find out whether the work could not be more expeditiously and cheaply done in England, and to consult the Manager, *Civil and Military Gazette* Press, as to the measures he usually adopted for obtaining reproductions of illustrations from England.

On the question of agricultural education Mr. Cope proposed, and Mr. Bell seconded, that the first resolution of the Sub-Committee be amended as follows :—

"That agriculture should be introduced *in the ordinary and zamíndári courses* for Normal Schools."

The other resolution of the Sub-Committee were adopted without change.

7. *English Sub-Committee*, 16*th June* 1891.—The recommendations of this Sub-Committee were approved. Mr. Oman's reply to the enquiry whether he would undertake to edit the book he had himself proposed was read, and Mr. Oman was thanked for offering to do so. A Sub-Committee was appointed to consider the details of Mr. Oman's reply and to deal with all matters connected with the preparation of the book, the Sub-Committee to consist of Mr. Sime, Dr. Ewing, Dr. Stein, Mr. Cope, Mr. Andrews, Mr. Oman, Bábu Chandra Náth, and the Secretary.

8. *Urdu Sub-Committee*, 18*th June* 1891.—The Proceedings were approved.

9. *Hindi and Sanskrit Sub-Committee*, 23*rd June* 1891.—The recommendations of the Sub-Committee were adopted without modification.

J. C. R. EWING,
Chairman.

NOTIFICATION.

[Second publication.]

The 3rd August 1891.

No. 3407 *G.—Notification.*—With reference to Rule 5 of the rules contained in Schedule "B" of Chief Court Book Circular No. XXIII—5607 G., dated the 18th December 1890, it is hereby notified that two appointments to the post of Munsif are expected to become available during the year 1892 for competition by candidates admitted to Register B maintained in the Chief Court.

FINANCIAL COMMISSIONER'S OFFICE.

The 21st July 1891.

Addenda and Corrigenda to Punjab Revenue Circulars.

No. 202.

Page 218, Circular No. 31, for paragraph 28 substitute :—

Claims for remission of canal revenue including owner's rate and water-advantage rate fall under 3 classes :—

(*a*). They may be due to failure of the water-supply or to the action of the Irrigation Department.

(*b*). They may be due to causes beyond the control of either the Irrigation Department or the cultivator, *e.g.*, hail, locusts, &c.

(*c*). They may be due solely to the default of the cultivator as, *e.g.*, when he absconds or becomes bankrupt.

It is only in the third class of cases that the claims will be dealt with by the Collector, whose action in the matter will be subject to the rules which govern the remission or recovery of land revenue under like circumstances. Claims for remissions of the 1st and 2nd classes will be entertained and disposed of by the Divisional Canal Officer on all canals on which he assesses the canal revenue. In disposing of claims of the 2nd class he will be guided solely by the actual condition of the crops on account of which remission of canal revenue is claimed.

If there has been a complete failure or destruction of a crop due to causes beyond the control of either the cultivator or the Irrigation Department the canal revenue otherwise assessable, whether as occupier's rate, owner's rate, or water-advantage rate, should be entirely remitted. In cases of partial failure, partial remissions should be given; but if the failure is so nearly complete that it may be calculated that the cultivator recovers nothing beyond the seed and the bare cost of cultivation the failure should be treated as complete.

...oxy papers.

1. The Registrar laid on the table a statement of the proxy papers received.

...ised Regulations for the Oriental and Arts Faculty Examinations.

2. The first business taken up was the second proposal on the Agenda.

It was as follows:—

2 (a). *That the changes in the Arts Faculty Examination Regulations, as proposed by the Arts Faculty in its Proceedings of the 22nd May* 1891, *and the changes proposed in the Oriental Faculty Examination Regulations, as recommended by the Oriental Faculty in its Proceedings of the 15th May* 1891, *be adopted, and that in the event of their being sanctioned by the Local and Supreme Governments, these changes be introduced in* 1892.

With regard to 2 (a) the Vice-Chancellor explained the changes that had been made ...the Arts and Oriental Faculty Regulations regarding the admission to the Examinations, ...arrangement of the Examination papers in Oriental Languages, &c., and dwelt on the ...ity of the alterations proposed in the Regulations for the M. O. L. Examination, pointing ...the anomaly now existing in them which permitted a candidate, not thoroughly acquainted ...any of the Oriental Classical Languages, to obtain the degree of Master of Oriental ...ing. It was resolved that the Revised Regulations, as given in Appendix I, be passed ...submitted to the Local and Supreme Governments for confirmation previous to their ...sealed with the Common Seal of the University.

The proposal—

2 (b). *That the change in paragraph* 10 *IV. of the Middle School Examination Regulations, as proposed by the Syndicate in its Proceedings of the 30th May* 1891, *be sanctioned with effect from* 1892—

...was sanctioned (*see* Appendix II).

Final Standard Examination for European Schools.

3. The 25th proposal of the Syndicate, which was as follows:—

That the Final Standard Examination, prescribed for European Schools, be held to be equivalent to the Entrance Examination in the Arts Faculty of the Panjab University wherever the passing of the Entrance Examination of an Indian University is a necessary condition for admission to any of the Examinations of the University (vide paragraph 2, Syndicate Proceedings dated 28th February 1891)—

was considered along with the changes in the Regulations for the Intermediate Examination and was unanimously accepted.

Revised Medical Examination Regulations.

4. The third proposal—

That the revision of the Medical Examination Regulations, as proposed by the Medical Faculty in its Proceedings of 12th May 1891 (Appendix II), be accepted with the modifications recommended by the Syndicate in its Proceedings of the 30th May 1891, and that in the event of the Revised Regulations receiving the sanction of the Local and Supreme Governments, the same come into force in 1892—

was next considered. The Vice-Chancellor having explained the reasons which had induced the Medical Faculty and Syndicate to revise the existing Regulations with a view to remove certain deficiencies and inaccuracies in the wording, the above Resolution was carried with a verbal modification, proposed by Dr. T. Young and accepted by all the members present, substituting in paragraph 17 of the L. M. S. and in paragraph 13 of the M. B. Regulations the words "Chemistry and Physics" for "Chemistry" (see Appendix III).

Revised Financial Rules.

5. In reading the next proposal, which was as follows:—

That the Revised Financial Rules, as proposed by the Syndicate in its Proceedings of the 30th May 1891, be adopted—

the Vice-Chancellor explained the principal features of the Revised Rules and the desirability of the constitution of a Board of Accounts. While accepting these Revised Rules on the whole, Mr. Kellner (Accountant-General, Panjab) proposed that in the first paragraph the words "Official Year" be substituted for the "Calendar Year." The amendment was seconded by Mr. Bell, and on being put to the vote was carried unanimously. Bábu S. B. Mukerji enquired why in the Financial Rules no reference was made to the Oriental College Accounts. The Vice-Chancellor explained that the Oriental College Accounts were quite distinct and separate from those of the University, and that it had not been found opportune to incorporate rules referring to them in the General Financial Rules as now before the meeting.

The Financial Rules, with the amendment of Mr. Kellner as stated above, and a corresponding alteration of date in paragraph 15, were then passed, as shown in Appendix IV.

Procedure at Convocation.

6. The next proposal was—

That the Rules regarding the procedure to be followed in conferring degrees be amended, as recommended by the Syndicate in its Proceedings of the 8th June 1891.

The Vice-Chancellor explained the necessity of shortening the procedure at Convocation in view of the increasing number of persons who would be entitled to receive degrees at the ceremony. Bábu Sási Bhushan Mukerji proposed an amendment that groups of candidates be presented separately according to the divisions in which they passed. The Vice-Chancellor pointed out that the object of the new rules would be partially defeated and the procedure at the Convocation would still be lengthened if the Bábu's proposal were adopted.

The amendment not having been seconded was thereupon withdrawn, and the original proposal was passed (*see* Appendix V).

Changes in the Courses of Reading.

7. The next proposal—

That the changes proposed in the Intermediate, B. A. and B. O. L. Examination Regulations and Courses of Reading by the Arts Faculty in its Proceedings of the 17th April 1891 with the modifications proposed by the Syndicate in its Proceedings of 30th May and 8th June 1891 be adopted, and that, in the event of the changes proposed receiving the sanction of the Local and Supreme Governments, the same be introduced with effect from 1894—

being put forward the proposed raising of marks for History and Philosophy and the reduction of 150 marks for Mathematics was discussed. Shaikh Nának Bakhsh, Khán Bahádur, proposed, and Muhammad Husain Khán, Khán Bahádur, seconded, an amendment that the

marks for Mathematics be fixed at 130. Bábu Sási Bhushan Mukerji spoke against the amendment. On being put to the vote the amendment was lost.

The Vice-Chancellor brought to the notice of the meeting the opinion expressed by the Reverend Mr. Allnutt in his proxy paper that Natural Theology be retained as an alternative subject along with Inductive Logic for the second paper in Philosophy in the B. A. Examination as originally proposed by the Arts Faculty. Dr. Ewing said that on further thought he was inclined to support the retention of Natural Theology, as it seemed hard to make Inductive Logic a compulsory subject for all students of Philosophy. Mr. Bell also supported Mr. Allnutt's views, especially on the grounds that Inductive Logic, which by the Syndicate's proposal would be made compulsory for students taking up Philosophy, could be studied with advantage only by students acquainted with Natural Science, and that therefore the study of Philosophy in those Arts Colleges where Natural Science was not taught would suffer by the exclusion of this alternative subject.

Mr. Bell then proposed, and Dr. Ewing supported, an amendment that Natural Theology be retained as an alternative subject for Paper *b*, Part 2, in Philosophy at the B. A. Examination. After Bábu P. C. Chatterji had mentioned certain objections against the introduction of Natural Theology into the B. A. Examination, the amendment was put to the vote from the Chair and carried by 8 votes against 6, the Vice-Chancellor and the Registrar not voting. The Syndicate's proposal thus amended was then passed (*see* Appendix VI).

Regulations for LL. B. and LL. D. Examinations.

8. The next business was the first proposal on the Agenda. It was as follows :—

That the Regulations for the LL. B. and LL. D. Examinations, as adopted by the Syndicate (see *paragraph* 4 *of Proceedings dated* 25*th March* 1891, *Appendix II*), *be sanctioned.*

The Vice-Chancellor explained succinctly the principles upon which the Regulations for the new Law degrees had been framed, and which had been set forth at length in his previous memorandum on the subject (*see* Appendix VII).

In order to facilitate the introduction of these Regulations, the Vice-Chancellor proposed, and Bábu P. C. Chatterji seconded, an amendment that the following provisos be added to paragraph 1 of the special rules for graduates in Arts of the Panjab University who desire to qualify for the LL. B. degree :—

"Provided that Law students who may have passed the Preliminary or First Certificate in Law Examination prior to the coming into operation of these rules will have the option of taking advantage of these rules, subject to the condition of their graduating in Arts in the examination to be held in March 1892."

The following proviso to be added to Rule B. of the abovenamed special rules :—

"Provided that Law students, being graduates in Arts, who may have passed the Preliminary Examination prior to the coming into operation of these rules, may at once after the passing of these rules join the Licentiate-in-Law class if they desire to be governed by these rules, and shall be entitled after attending not less than three-fourths of the lectures delivered in the Licentiate-in-Law class during the year of their joining the same to appear at the Intermediate Examination in Law."

These amendments having been passed unanimously, the Regulations for the LL. B. and LL. D. Examinations as shown in Appendix VIII. were sanctioned.

Dr. Browne's nomination as representative of the Senate on the International Congress for Hygiene and Demography.

9. The proposal—

That Dr. S. H. Browne be nominated to represent the Senate on the VIIth International Congress for Hygiene and Demography, to be held in London, August 1891—

was passed unanimously.

Appointment of Lála Rámji Dás as Auditor of the University Accounts.

10. The next proposal—

That Lála ámji Dás, Accountant, Public Works Department, be re-appointed Auditor of the University Accounts for a term of two years—

was passed without discussion.

Examiner in Engineering.

28. The appointment of Rái Bahádur Ganga Rám as Examiner for the First Examination in Civil Engineering for 1891 was confirmed.

English Courses of Reading.

29. Agreeably to the Syndicate's proposal it was resolved—

That the Revised Courses of Reading in English for the Intermediate and B. A. Examinations of 1893 and 1894, as adopted by the Syndicate (vide paragraph 3 (b), Syndicate Proceedings, dated 25th March 1891, with Appendix), be sanctioned, see *Appendix XVI.*

M. A. Courses of Reading.

30. The next proposals of the Syndicate—

(*a*). *That the English Course of Reading for the M. A. Examination, 1893, as proposed by the Arts Faculty in its Proceedings of 22nd May 1891, be adopted ;*

(*b*). *That the new Course in Mathematics for the M. A. Examination, as recommended by the Arts Faculty in its Proceedings of the 22nd May 1891, be adopted for 1892, and that it should remain in force until changed under the orders of the Senate ;*

(*c*). *That the M. A. Examination Course in Sanskrit prescribed for 1892 be retained for 1893* (see *Oriental Faculty Proceedings, dated 10th May 1891*) ;

were then carried (*see* Appendices XVII to XIX).

Rules proposed by Chief Court.

31. The Rules proposed by the Hon'ble Judges of the Chief Court for granting special permission to candidates to appear at the Law Examinations held by the University and accepted by the Syndicate (*see* paragraph 6, Syndicate Proceedings, dated 25th March 1891, Appendix III) were adopted (*see* Appendix XX).

Endowment of Patiála-Sime Medal.

32. It was resolved—

That the sum of Rs. 3,000 received from His Highness the Mahárája of Patiála for the endowment of the Patiála-Sime Gold Medal be invested in 4 per cent. Government Promissory Notes, His Highness having kindly agreed to bear the cost of the investment.

Application regarding Gurmukhi Examinations.

33. The last proposal of the Syndicate was—

That application be made to the Military authorities with a view of securing for students of the Oriental College who have successfully passed the Panjab University Examinations in Gurmukhi Language and Literature a preferential claim to employment as Granthís in Sikh Regiments.

This was passed unanimously.

Appointment of Jullundur Medical Reader.

34. The Senate then proceeded to appoint a person to hold the post of Jullundur Medical Reader, which had become vacant on expiration of the term of the previous appointment. In accordance with Rule 3 relating to Endowed Readers and Translators special notices had been previously circulated among the members of the Senate.

Dr. Perry, Officiating Principal, Medical College, had recommended the previous incumbent, Rái Bahádur Brij Lál Ghose. The meeting accordingly resolved that Rái Bahádur Brij Lál Ghose be re-appointed Jullundur Medical Reader on the salary fixed by the Senate's Resolution 12 of the 27th November 1890 for a term of two years with effect from the present date.

Appointment of Patiála Translator.

35. Special notices had been issued also regarding the filling up of the post of Patiála Translator which had become vacant on resignation of the previous incumbent. No written recommendations had been received.

It was resolved that Lála Chandar Bhán, B. A., who had been selected by the Syndicate to officiate in the appointment since the 1st April 1891, and who was also strongly recommended by Bábu S. B. Mukerji, be appointed Patiála Translator for a term of two years from the date of the present meeting.

REGULATIONS FOR THE EXAMINATION FOR MASTER OF ORIENTAL LEARNING.

Memorandum by the Vice-Chancellor on the Regulations for the Degrees of LL.D. and LL.B.

THE privilege of granting Law Degrees has now been conceded to this University by the Government of India in their No. 54, dated 20th February, 1891, to the address of the Under-Secretary to the Government of the Panjab, Home Department; and the University is required to submit a draft of the Regulations, after confirmation by the Local Government to the Government of India, under Section 18 (*d*) (*a*) of Act XIX. of 1882.

2. In drafting these Regulations the first point to be considered is, whether the LL.B. Examination is to take the place of the present Licentiate-in-Law Examination, or to be quite independent of it. Now, in considering this question, it has to be remembered that the Licentiate-in-Law Examination is primarily intended as a qualifying examination for pleaderships, to which persons, who do not know English, may be admitted. To substitute the LL.B. Examination for this examination would involve one of two results, namely, either (*a*) to permit non-English-speaking candidates to compete for the LL.B. Degree, or (*b*) to exclude such candidates from the examination altogether, the practical result of which would be to prevent them also from qualifying as pleaders. But there would be very serious objections to the former course, and I doubt if the Government of India would ever sanction a Regulation permitting the examination for the Degree of LL.B. to be passed through the medium of the Vernacular. On the other hand, it would operate very harshly on non-English-speaking candidates to prevent them from entering a lucrative and honorable profession, as would be the case if English were made the medium of their examination; and the Chief Court would most probably protest against any substitution of one examination for another which would involve such a result. Again, it would be unjust to give the English-speaking candidates the Degree of LL.B., merely because they answered in English, and the Vernacular candidates only a Diploma as a Licentiate, because they answered precisely the same questions in Vernacular. And, lastly, it would be inexpedient to merely add to the number of English subjects, and allow these subjects to carry the additional honor of a Degree. The objections to this course would appear to be, that it would be difficult to keep the two parts of the examination entirely distinct from each other, for some of the selected LL.B. subjects, as for instance, General Jurisprudence and Constitutional History, would, under almost any scheme that could be suggested, be found already included in the Licentiate-in-Law Examination, and there would be considerable practical difficulty in so distinguishing the marking of the answer papers as to avoid prejudicing the chances of the several candidates in obtaining the Diploma of a Licentiate, even if they failed to obtain the Degree of Bachelor of Laws. Some candidates might also be content to appear only for the Licentiate Diploma. Besides, the combined examination would impose too great a strain on candidates, whose chances of success would therefore suffer.

3. Having regard, therefore, to the above objections to the substitution of the LL.B. Examination for the present Licentiate-in-Law Examination, or to the expansion of the latter so as to embrace both the qualifying test for pleaderships and a suitable standard for the Degree of Bachelor of Laws, it would seem desirable that the LL.B. Examination should be kept independent of the present Licentiate-in-Law Examination. By doing so the University would be in a position to give the former examination a more academical character, while the latter would still be maintained as a professional test for those who merely wished to qualify as pleaders. It will not be denied, I think, that this distinctive feature of the two examinations should not be lost sight of; whereas, by combining the two examinations into one, it would make the examination cumbersome, and there would be less scope for the development of a scientific study of law, which the newly conferred power would enable the University to promote, and which the Government has a right to expect will be exercised with that distinct object. I am also very happy to be able to add that the above view has met with the cordial approval of the learned Senior Judge of the Chief Court, whose opinion on such a question as the present is, of course, entitled to the greatest respect.

4. I have accordingly prepared the Draft Regulations on the supposition that the LL.B. Examination will be entirely distinct from the existing Licentiate-in-Law Examination. And, as regards the scope of the proposed examination, it will be seen that the four subjects selected are those which from an academical point of view are best calculated to promote a scientific study of law. Such a special course will, it is thought, very suitably follow the three years' course, leading up to the Licentiate-in-Law Examination, and we may

very well exclude from it those special and local subjects which, although essential for the purposes for which the last-named examination was devised, would not be necessary for the last year's finishing course, in which Law, as a science, would demand a more exclusive attention. In such a course Roman Law ought certainly to find a place, for no one who aspires to a law degree ought to be entirely ignorant of a system which has formed the foundation of the greater part of the modern Civil Law, and I observe that in other Indian Universities (*i.e.*, Bombay, Madras and Calcutta), also the subject is not neglected. In like manner, every holder of a law degree ought to have some acquaintance with the Constitutional History of the country of which he is a subject. Of the remaining two subjects—Jurisprudence and International Law—all that need be said is, that they necessarily form part of a scientific law course, and candidates for the LL.B. Degree will already have made some acquaintance with them in their previous Licentiate-in-Law course.

5. It has, however, been represented to me by certain of the law students, who are also Graduates in Arts, that some special rules should be framed to meet the case of those students who desire to complete their Arts Course before joining the Law School, and who desire thereafter to compete for a law degree without qualifying as mukhtiárs or pleaders. It seems to me that the case of such students deserves special consideration, and from a University point of view it is certainly very desirable that students in Arts should not have their attention divided for any long period by prosecuting their legal studies while preparing for their Arts Degree. Again, it seems reasonable that those law students who do not desire to obtain a certificate as pleaders, until they pass their LL.B. Examination, should be permitted to complete their legal academical course within the same period as Licentiate-in-Law can now do so under the existing Regulations. This could be easily effected by not insisting upon such candidates passing the First Certificate-in-Law Examination, which deals mainly with laws of procedure, and is primarily intended as a professional test for mukhtiárs. I have accordingly drafted a set of Special Rules which, I think, will adequately meet the case of the class of students for whom they are intended.

6. Passing now to the Draft Regulations for the LL.D. Degree, it will be seen that it is proposed that the four subjects, prescribed for the Bachelor of Laws, should also be amongst those prescribed for this examination; and it is obvious that the reasons which have already been urged for their introduction in the LL.B. Course apply with still greater force in the case of the LL.D. But for the latter degree—which will be the highest in the gift of the University—it is also proper that the candidates should be required to have a knowledge of English Common Law and Equity, and also of the History of the English Criminal Law, and of the general principles of Criminal Liability. Thus, it is proposed that there should be six subjects for this examination, and a less extensive course than this ought not, in my opinion, to be prescribed for it. By maintaining such a standard of qualification we shall not only justify the grant of the powers which have just been conferred on our University, but we shall also ensure that our Law Degrees will carry that respect with them which, I am sure, we all desire they should do.

7. As regards the Academical Costume for the Law Degrees, we must, of course avoid the adoption of costumes which would be similar to those in use in other Indian Universities, and at the same time we must choose colors which would be suitable in themselves. It is hoped that the proposals on this subject in the Draft Regulations will meet with general approval.

APPENDIX IX.

Dated Lahore, 18th November, 1890.

From—Lala RAMJI DAS, Auditor, Panjab University Accounts,

To—Dr. M. A. STEIN, Registrar, Panjab University.

I HAVE the honor to report that I have audited the Current and the Funded Accounts of the Panjab University for nine months, from April to December 1889, and the Oriental College Accounts for twelve months, from April 1889 to March 1890. The books and vouchers are all kept well and in good order.

Current Account.

2. The last column of Cash Book " Head of account debited or credited " is not filled in. This should be completed in future.

3. A proper check cannot be exercised on advances made to Superintendents, &c., for examination or other expenses, in the absence of a separate book of such transactions. I would therefore suggest that a register should be opened showing the month in which each advance is made, the amount advanced, and the month in which it is recovered or otherwise adjusted.

4. All payees' receipts should vouch for the gross amount for which they are acquittances, and not for the net amount after deduction of income tax, &c.

5. It is noticed that a temporary clerk on Rs. 20 per mensem is continuously employed his pay during examination days being charged to the expenses of the examination on which he is employed ; but when no examination is going on, his pay is charged to Office Contingencies. Such charges should not form part of Office Contingencies. If necessary, his pay should be charged in the salary bill.

6. Income tax has not been recovered on the amounts paid to Examiners whose income was taxable. This, I understand, is being done now.

Oriental College Account.

7. The cost of chicks and mats is charged to " Furniture," but as these articles are of a perishable nature, their cost is properly chargeable to Office Contingencies.

Funded Account.

8. There is nothing special to be mentioned in regard to these accounts, except that a ledger has been newly opened for the special trusts.

General Remarks.

9. A consolidated balance sheet is being prepared and is likely to be ready during the current month.

10. In receipts which are written out in English and which the payee signs in vernacular, the amount paid should be written in vernacular by the payee himself.

11. All signatures on acquittance rolls should be dated in order that the date of payment could always be ascertained.

12. All vouchers should be cancelled by enfacement, or otherwise, after audit.

13. No Stock Register is maintained, and as one is required to be kept up (*vide* para. 22 iii of the Financial Rules), a Valuation Register may be opened for the Stock-in-trade only, as I believe it would not be possible to arrive at the cost of library books and office furniture. For such stock, nominal and numerical lists would suffice.

14. In conclusion, I would suggest that some help should be given to the Accountant, as, in my opinion, his work is much more than what can be done single-handed.

REGISTRAR'S OFFICE:
LAHORE,
The 17*th November*, 1890.

RAMJI DAS,
Auditor.

M. A. STEIN,
Registrar.

Resolution of the Syndicate of the Panjab University, dated 26th November 1890, on Auditor's Report for 1889.

Auditor's Report.

4. THE Report of the Auditor for the three quarters ending 31st December 1889, dated 18th November 1890, was laid before the Meeting and considered by the Syndicate.

With regard to paragraph 2 of the Report, the Syndicate was of opinion that the filling up of the column printed in the Cash Book referred to was not required, as special Registers of Receipts and Expenditure were provided under the present Financial Rules. With reference to paragraph 11, the Syndicate did not see the necessity of imposing the stringent rule regarding the dating of all signatures on Acquittance Rolls. It was resolved that the proposals contained in paragraphs 12 and 13 be considered when the revision of the Financial Rules was taken up

The Syndicate then resolved that, with the above remarks and modifications, the Report of the Auditor and the suggestions contained therein be recommended to the Senate for adoption.

APPENDIX XII.

Extract from the Proceedings of the Oriental College Committee dated 12th December 18[illegible] sanctioned by the Syndicate in its Proceedings, para. 5, dated 20th February 1891.

2. In connection with the above resolution, the Committee resolved after careful con[illegible] sideration to recommend to the Syndicate that the arrangements carrying on the Ma[illegible] work, as sanctioned by the Syndicate on the 27th May 1890 (*see* Proceedings, paragraph [illegible] be continued for the future, and that in view of the retirement of the Assistant Profes[illegible] Arabic, who had also acted as Superintendent of the Arabic and Persian Departmen[illegible] following increments of pay be granted to teachers of these Departments out of the sa[illegible] effected from the special Government Grant received on account of the Assistant Profes[illegible] pay.

The salaries of Maulvi Abdulla, Head Maulvi, and of Maulvi Abdul Hakim [illegible] Munshi, to be increased from Rs. 100 per mensem (including in each case Rs. 10 as [illegible] allowance payable from Government Grant) to Rs. 120 per mensem by annual increments [illegible] Rs. 5.

In view of this promotion, the above two Head Teachers will be required to act wi[illegible] out further remuneration as Superintendents of the Arabic and Persian Departments.

The salary of the Second Munshi, College Department, to be raised from Rs. 7[illegible] mensem (including Rs. 10 on account of special allowance payable from Government G[illegible] to Rs. 90 per mensem by annual increments of Rs. 5, in consideration of the ser[illegible] rendered by him in connection with the tuition of Government College students in Pe[illegible] and Arabic.

The salary of Qazi Zaffar-ud-dín, Second Maulvi, College Department, to be incr[illegible] from Rs. 65 per mensem to Rs. 75 per mensem by annual increments of Rs. 5, and the sa[illegible] increase, from Rs. 65 per mensem to Rs. 75 per mensem, to take place in the pay of Pa[illegible] Sukh Dyal, the Second Pandit, College Department.

It was further resolved that the above increases of pay should take effect from [illegible] beginning of the next Budget year, *i. e.*, 1st April 1891.

APPENDIX XIII.

Proceedings of a Meeting of the Sub-Committee of the Syndicate on Budget for 1891, *February* 27*th*, 1891.

PRESENT :

W. H. RATTIGAN, ESQ., M.A., LL.D., *Vice-Chancellor, in the Chair.*

P. C. CHATTERJEE, ESQ., M.A., B.L. | REV. J. C. R. EWING, M.A., D.D.

HAVING the Budget Estimate and a staetment of the actual expenditure for 1890 before it, the Sub-Committee carefully examined and approved the proposed expenditure for 1891 item by item.

Under the head of proposed expenditure in Registrar's Office Establishment it was observed that Rs. 3,996 only includes an increment of Rs. 5 per mensem and Rs. 20 for an extra clerk (*see* Proceedings of 26th November 1890).

In this connection, a proposal from the Registrar was placed before the Meeting to the effect that certain increments for pay be given to the establishment. In consideration of the amount of the work required of the employés, and the fact that several of them occupy posts of very considerable responsibility, together with the circumstance that no pensions or retiring allowances attach to these positions, it was unanimously resolved to recommend the following as the scale of salaries :—

Name.	Designation.	Present salary.	Proposed maximum.	Rate of yearly increment.
		Rs.	Rs.	Rs.
Behari Lal	Accountant	90	150	10
Sikandar Khan	Record-keeper, Diarist, and General Assistant	50	75	5
Nihal Singh	Copyist and General Assistant	30	50	4
Haji Muhammad	Despatcher and Proof-Reader	30	50	4
Jagan Nath	Librarian and Assistant to Accountant	30	50	4
M. Muhammad	Muharrir and in charge of Books for sale...	15	20	...
Siraj-ud-din	Extra Clerk	20	...	...
Two Apprentice Clerks	... ...	15	15	...

It was pointed out that in the anticipated expenditure for 1891 certain items include sums actually belonging to 1890, but which were not paid during that year owing to want of funds.

It was further shown that as the funded accounts have been set free, the current income of the University will in future be able to meet the legitimate expenditure of each year within the year, and as a consequence the expenditure in future years under these particular heads will revert to the normal amount.

Although under the head of Ways and Means a balance of Rs. 4,100 was shown on 1st January 1891, it is not to be understood that this was money really available in excess of expenditure for the year, but merely accumulated owing to receipts from fees of the Middle School Examination at the close of the year, there not being then opportunity of discharging items really due for 1890 before the accounts for the year were closed.

The Sub-Committee also went through the Special Trust Funds account, and found it to be now in a satisfactory condition.

With regard to the Fuller Exhibition, it was resolved to recommend that a sum sufficient for the purchase of a Government Promissory Note of Rs. 500, for which a balance of Rs. 485 is already available, be contributed from the current account. The object of this proposition is to enable the scholarship at Rs. 35 per mensem to be continued, which at present is slightly above the income realized from the endowment, as explained in the column of remarks opposite the account. In regard to this fund as well as other funds, where the balance admits of it, the amount should, in the opinion of the Sub-Committee, be invested for the benefit of the funds in question in Government Promissory Notes, so that the several funds may, in so far as possible, become remunerative in future.

Under the head Ways and Means the Budget shows the following:—

	Rs.
Balance on January 1891	4,100
Expected receipts	91,527
Total ...	95,627
Probable expenditure	90,894

Remarks of the Oriental College Committee on the Statistical Report for 1890-91.

I.—The receipts of the Oriental College Budget for the year 1890-91 amounted to Rs. 21,679. Against this there is an expenditure of Rs. 20,692 in the year under report, so that there has been a saving of Rs. 987 on the whole. The saving resulted chiefly from restricted expenditure under the heads of Stipends and Miscellaneous expenses. To the saving on the Budget (Rs. 987) must be added receipts on account of fees (Rs. 466), making a total saving of Rs. 1,453.

II.—The total expenditure against the Oriental College Budget was Rs. 20,692 against Rs. 20,528 in the previous year. Towards this expenditure Rs. 2,043 were contributed by the Special Government grant which had been sanctioned with effect from the 1st July 18[illegible] by the Local Government to meet the actual expenses connected with the tuition of Government College Classes in Oriental languages.

The total expenditure against the University Budget was Rs. 10,564 (including Rs. 3,299 on account of Assistant Professors transferred from the Government College, and Rs. 3,787 on account of Endowed Readers) and Rs. 905-1-1 on account of Government Scholarships held by students of the College.

III.—The number of students on the roll on the 31st March 1891 was 79 in the College and 49 in the School Department. These figures show a decrease against those for the corresponding date of the previous year, which were 81 in the College and 57 in the School Department.

This slight decrease can be partly accounted for by the reduction in the number of stipends which was effected during the year under report, the stringent rules adopted in 18[illegible] for the award and tenure of stipends having been rigorously enforced.

IV.—The scholars on the rolls on the 31st March 1891 were divided according to creed as follows:—

	Hindu.	*Muhammadan.*	*Sikh.*	*Total.*
College Department ...	19	49	11	79
School do. ...	19	23	7	49
Total ...	38	72	18	128

V.—The following was the number of Scholarship-holders (Government, University, Municipal) and Stipendiaries on the 31st March 1891:—

	Scholarship-holders.	*Stipendiaries.*	*Without Scholarship or Stipend.*	*Total.*
College Department ...	35	25	19	79
School do. ...	8	11	30	49
Total ...	43	36	49	128

VI.—The number of Stipendiaries has been reduced during the year from 41 to 36. It is also gratifying to note that the proportion of the number of students reading without scholarships or stipends to that of the stipend-holders has increased since the close of the previous school year.

VII.—In addition to students actually belonging to the Oriental College 102 students of the Government College, Lahore, who were reading for Arts Examinations, received in the year under review instruction in Oriental Languages in the Oriental College. Three teachers were permanently and three others (among them the Principal) for part of their time engaged in the tuition of these classes.

VIII.—During the year under report no changes of importance have taken place in the courses of reading prescribed for the Oriental Language and Degree Examinations of the Panjab University, and the separation of the Arts and Oriental Titles Classes both in the College and School, as laid down by the Sub-Committee appointed for the re-organization of the College classes, has been strictly maintained. The detailed Scheme of Studies pursued in each of these classes will be found on pages 12—16 of the Report; it also shows the progress made in the instruction in English which had been organized for the Oriental Titles Classes under the recommendation of the above-named Sub-Committee.

IX.—The results gained by the Oriental College in the University Examinations show a further increase in the percentage of passed candidates as compared with those of preceding years, 72·4 per cent. of the candidates sent up from the Oriental College and School having passed the various University Examinations in 1891 against 71·4 per cent. in 1890, 67·6 per cent. in 1889, and 47 per cent. in 1888 (*see* statement of results, p. 9). It may be noted that these results were obtained in not less than 14 different examinations.

The results of the year have also been favourable with regard to the success gained by ividual scholars of the Oriental College in these examinations. Both in the B. O. L. and ermediate Examinations of the Oriental Faculty students of the Oriental College occupied first place in order of merit, all three successful candidates in the latter examination being ed in the II Division and standing highest in order of merit. In all three Honors Examinations in Oriental Languages (Shástri, Maulvi Fázil, Munshi Fázil) the highest place was ned by students of the Oriental College, the pass percentage of the College in the first-named two Honors' Examinations being fully 100 per cent.

The following list shows the examinations in which Oriental College students stood first in order of merit :—

B. O. L. Examination.
Intermediate Examination.
Shástri „
Maulvi Fázil „
Munshi Fázil „
Munshi Alim „
Vidvan „

On the results of the above-named examinations 8 University and Government Scholarships were gained by students of the Oriental College.

It is also satisfactory to note, with regard to the results of the tuition given by the Oriental College to students of the Government College, that, as shown on page 11 of the Report, not less than 83 per cent. of all Government College students who appeared in the Intermediate and B. A. Examinations of 1891 passed with success in the Oriental Classical Languages in which they had received tuition in the Oriental College.

X.—The system of House Examinations in College and School as introduced in 1888 and supplemented by an annual examination for the I. Year Classes has been continued in 1890. The award and tenure of stipends has been made in every case strictly dependent on the results gained by individual scholars in these House Examinations.

XI.—The following changes in the teaching staff of the College and School have taken place during the year under report. The Assistant Professor of Arabic, Maulvi Muhammad Husain, Azád, was granted by the Oriental College Committee and Syndicate an extension of sick leave from the 15th April to the 15th October 1890, and during this period the officiating arrangements which had been in force during the preceding school year were continued. On the Maulvi being unable to take up his work at the expiration of the leave granted to him, the Oriental College Committee resolved to recommend to the Senate that he be permitted to retire on pension, and that the previous officiating arrangements having proved satisfactory be now made permanent. In accordance with this resolution the Head Maulvi, M. Abdulla, and the Head Munshi, M. Abdul Hakím, were appointed Superintendents of the Arabic and Persian Departments respectively, Maulvi Rashíd Ahmad was confirmed in his appointment as Additional Arabic Teacher and Maulvi Muhammad Shuaib was confirmed in the post of 2nd Maulvi, School Department, previously held by Maulvi Rashid Ahmad.

Lála Chuni Lal, B.A., Patiála Translator, who had been entrusted with the Mathematical Teaching in the College Classes, asked permission to resign his appointment, which was granted to him with effect from the 1st January 1891. Lála Chandar Bhán, B.A., who was nominated by the Syndicate to act in his place, did not join the Oriental College Staff till the beginning of the new school year. In the intervening period the teaching work of the Patiála Translator was carried on by Shaikh Rahím Bakhsh, M.A., and Maulvi Gholám Mustafa in addition to their other duties.

M. Hissám-ud-dín succeeded M. Muhammad Sadíq on the 1st June 1890 as the holder of the Baháwalpur Arabic Scholarship and Teacher of the Munshi Class.

The Principal was granted leave by the Senate for the month of July 1890 to proceed to Europe, and during his absence the current duties of the Principal were entrusted to Pandit Guru Prasáda, M. M., Head Pandit and Superintendent of the Sanskrit Department.

Instruction in English.

During the School year 1890-91 the tuition in English which had been introduced since 1888 into the classes reading for Oriental Titles has been continued and extended on the lines indicated by the recommendations of the Sub-Committee which had been appointed to consider the re-organization of the Oriental College.

In addition to the four classes already in existence at the end of the previous school year, a new class was opened for students who joined the Oriental Titles Classes at subsequent periods without having received previous instruction in English. The Classes organized for tuition in English during 1890-91 have thus been as follows :—

I. HIGHER MIDDLE CLASS: for students who had attended the English Middle Class since 1888, or had received an equivalent amount of tuition in English previous to their joining the College. This class having attained by the close of 1890 the standard prescribed for the Middle School Examination proceeded during the remaining three months of the year under report on a course adapted to that followed in the IVth Class of High Schools.

II. LOWER MIDDLE CLASS: attended by students who had begun the study of English without previous instruction when English tuition was introduced into the Oriental College in 1888. This class was taught, as in the previous school year, in two Divisions—

A. Comprising students belonging to the Sanskrit and Gurmukhi Departments.

B. Comprising students reading in the Arabic and Persian Departments.

The teaching of the Middle Classes was entrusted during the year under report to Teacher L. Shugan Chand, holding an Anglo-Vernacular Senior Teachers' Certificate of the Second Grade, who also superintended the tuition of the Primary Classes, conducted by the Assistant English Teacher Mul Singh, holding an Anglo-Vernacular Junior Certificate.

Oriental College Library.

During the year 1890-91 the Library of the College has been enlarged by considerable additions for which Rs. 503-12-5 were spent. As in previous years, the purchases were chiefly intended to provide the College with critical Editions of Oriental Classes and other philological publications by the use of which both teachers and students would be enabled to acquire a better knowledge of the methods of Western philological research and of the results obtained through it in the various departments of Oriental studies.

To the liberality of the Asiatic Society of Bengal the library owes the present of a set of the Society's latest publications of Sanskrit, Arabic and Persian Texts in the "Bibliotheca India."

The total number of works added during 1890-91 amounts to 81 in 117 volumes, of which 41 works have reached the library as presents from the Asiatic Society of Bengal and private donors.

House Examinations.

During the year 1890-91 15 House Examinations by means of written papers have been held for each class of the Oriental College and School under the superintendence of the Principal. These House Examinations embraced all subjects taught in the Degree and High School Classes. For the Oriental Titles Classes 13 House Examinations were held in the different branches of the Oriental Languages and Literatures taught, and 2 House Examinations in English.

For the I. year Classes of the College and School an Annual Examination was held at the close of the School year 1889-90, comprising eight written papers.

Prizes had been offered by the liberality of Babu P. C. Chatterji, M.A., B.L., Fakir Saiyad Jamal-ud-din and others to the students standing highest in the Annual Examination of the above-named Classes, and these were publicly distributed in the Government College Hall on the 5th June 1890 by the Vice-Chancellor of the Panjab University.

No. 790 G., dated Lahore, 16th February 1891.

From—E. W. PARKER, Esquire, Registrar, Chief Court, Punjab,

To—M. A. STEIN, Esquire, PH. D., Registrar, Panjab University, Lahore.

IN continuation of my letter No. 536 G., dated the 29th ultimo, I am directed to acknowledge the receipt of your letter No. 1799, dated the 11th June last, and subsequent reminders, forwarding an extract from para. 4 (*c*) of the proceedings of the Syndicate, dated the 27th May last, on the subject of the conditions upon which graduates should be admitted direct, under the orders of the Chief Court, to the Licentiate-in-Law Examination.

2. In reply, I am to forward an extract from proceedings at a meeting of the Judges held on the 6th instant, which explains their views on the subject.

Extract from Proceedings at Judges Meeting held on 6th February 1891.

5. Read a letter No. 1799, dated the 11th June 1890, from the Registrar of the Panjab University, forwarding an extract from para. 4 (*c*) of the proceedings of the Syndicate dated the 27th May 1890 on the subject of the conditions upon which graduates and others should be admitted direct, under the orders of the Chief Court, to the Licentiate-in-Law Examination.

It was explained that the First Certificate in Law and Licentiate-in-Law Examinations were to a certain extent complementary of one another, so that a person admitted direct to the latter, without passing the former, would not have his knowledge of Civil Procedure, Criminal Law and Procedure, Revenue Law and Procedure, Court Fees, Stamps and Registration Laws, tested. It was therefore desirable that in cases in which persons were admitted to the Law Examinations under the power reserved to the Chief Court by the rules of the University, they should ordinarily be admitted first to the First Certificate Examination and subsequently to the Licentiate-in-Law Examination.

If in any special case the Judges thought it desirable to admit a person to the Licentiate-in-Law Examination without passing the First Certificate Examination, they would consider whether or not it was necessary to require such person to qualify by passing in such of the subjects of the First Certificate Examination in regard to which his knowledge might be deemed insufficient in addition to passing in all the subjects of the Licentiate-in-Law Examination.

The Judges agreed that their permission could be coupled with a condition to the effect as proposed by the Syndicate, the latter body arranging to see that the condition imposed was fulfilled, and the result reported to the Judges.

FINANCIAL COMMISSIONER'S OFFICE.

Addenda and Corrigenda to Punjab Revenue Circulars.

No. 205.

The 30th July 1891.

Page 141, Circular 28, add paragraph :—

34 A. It is a matter of practical importance, especially in connection with assessment work, that the jinswár statement should afford real information as to the crops, irrigated and unirrigated, actually grown in each harvest on the areas shown in the milan rakba as cháhi or náhri. In the jinswár statement the details of crops grown on various classes of soil should therefore be shown in the following manner : –

Cháhi { Cháhi. / Baráni. / Sailáb.

Cháhi ... Náhri.

Náhri. { Náhri. / Baráni. / Sailáb.

Abi.

Sailáb.

Baráni.

Thus all crops grown on cháhi lands in any harvest with the aid of well irrigation will appear under "cháhi-cháhi"; crops grown on lands classed as cháhi in column 7 of the milan rakba without the aid of irrigation in that harvest will appear under "cháhi-baráni," and crops grown on sailáb lands, which may be included in the area served by a well, but which do not receive irrigation from such well in any particular harvest, will appear as "cháhi-sailáb." As these details are all given in khasra girdáwari, or harvest inspection books, there will be no difficulty in entering them in the "jinswár" or return of crops.

A precisely similar course should be followed in the case of lands classed as náhri in column 7 of the milan rakba.

The entries to be made in column 11 of the milan rakba, or register of area under head "total area of crops by jinswár return" opposite "cháhi," will thus be the sum of the areas of crops classed in the jinswár as "cháhi-cháhi," "cháhi-baráni" and "cháhi-sailáb," and opposite náhri the sum of the areas classed in the jinswár as "náhri-náhri," "náhri-baráni" and "náhri-sailáb."

38 A. The following two statements, namely, Abstract of Cultivating Occupany and Abstract showing prevailing rents by classes of land, which form Statements VII and VIII in the village Note-books, have been amended, and the amended forms should be substituted for those at pages 828-830 of the Revenue Circulars. The statistics given in columns 13 to 24 of the first of these statements will in future be confined entirely to the case of tenants-at-will, as will the whole of the entries in the second of these statements. Beyond this the only change in the Abstract of Cultivating Occupancy is in the substitution of columns 21, 22 and 23 in the new statement for columns 21 and 22 of the old; and the statement of prevailing rents has been materially simplified.

2. Do not enter in column 3 rents reckoned at revenue rates with or without malikána, as these are not competition rents.

3. In districts where this is found necessary a further sub-division of land dependent on rain into "Best including manured" and "average" may be made.

4. Every rate of rent which may obtain in a village, circle, or tahsíl should not be entered in this statement. Only those rates which are generally paid should be entered.

Add following paragraphs :—

Rules for the management of stallions.

8. Copies of the rules for the care of Government stallions drawn up by the General Superintendent of the Horse-Breeding Department, and approved by Government, and also copies of the directions for the disposal of the dead bodies of Government stallions, will be found in Annexures C and D.

Inadmissible charges.

9. It is to be noted that the charge for watering a stallion should not exceed from 4 annas to 8 annas per mensem.

Charges for the following articles for the use of Government stallions are inadmissible:—

Oil, gur, flour, masála.

The use of oil for a lamp in the stable is objectionable on account of the risk of fire, and no light should be permitted at night in the stallion stables excepting in case of a horse being sick and requiring to be watched during the night. Flour, gur and masála do not form any part of the sanctioned food of stallions.

These charges will accordingly be struck out of the bills for feed and keep of Government stallions in the process of audit, unless they have been specially ordered or necessitated by special circumstances explained and certified by the Deputy Commissioner in submitting the bills for audit.

Branded mares not to be purchased by Government officials.

10. The purchase of all mares or fillies branded V. R., V. I., B. M. or with the broad arrow is strictly prohibited. The brand will be found either on one shoulder or on the saddle place.

This restriction not only applies to Native Cavalry and Police, but to all officers in Government employ, whether in the Military, Civil or other branches of the service.

No restrictions on purchase of barren branded mares.

11. There is no restriction on the purchase of mares which have been certified by the General Superintendent or Assistant Superintendent, Horse-Breeding Department, to have proved barren: in such cases every care should be taken to minutely compare the description given in the certificate as to color, age, height, and marks of the mares offered for sale.

District Boards to be encouraged to purchase stallions.

12. District Boards should be encouraged to purchase horse, pony, and donkey stallions in tracts likely to prove favourable for breeding. In all cases the General Superintendent, Horse-Breeding Department, should be consulted as to the animals to be purchased, and no stallion should be allowed to serve mares which have received the Government brand unless they have been certified to be fit for the purpose by the General Superintendent, Horse-Breeding Department, or one of his Assistants.

The purchase of stallions by District Boards should be reported to the Director of Land Records and Agriculture for information.

Correspondence how to be carried on.

13. With the exception of communications regarding current matters of routine in regard to which the orders of Government have been already made known, correspondence on the subject of horse and mule breeding operations with the Government or with the General Superintendent, Horse-Breeding Department, should usually be carried on through the Director of Land Records and Agriculture.

Deputy Commissioners to notice horse-breeding, &c., in Revenue Report.

14. Deputy Commissioners should briefly notice the condition of horse, mule, and pony breeding industries in their districts in Part I of their Revenue Reports under the head "cattle," and the Director of Land Records and Agriculture should note on the subject in his Annual Departmental Progress Report.

C.—RULES FOR THE CARE OF GOVERNMENT STALLIONS.

HORSE STALLIONS.

I.—Ventilation.

THE stable windows and all apertures (ventilators) in the walls, below and above and through the ceiling, should always be kept open.

II.—Stables to be kept clean.

Between the hours of 10 A.M. and 4 P.M. during the hot months, when flies are troublesome, and in the winter nights, when the air is cold and chill, the chicks of the doorways should be let down.

The floor of the stalls should always be kept clean and level.

Dung and urine to be immediately removed, and dry earth placed upon the part where urine has fallen.

The evacuations, soiled portion of the bedding, and foul earth of the floor should be thrown at a distance, to prevent offensive smells reaching the stable.

If these precautions are not strictly observed, the stallions are liable to get sick and their feet diseased.

III.—Bedding.

A sufficient quantity of bedding must be provided to enable the stallions to lie down comfortably.

Every morning the bedding should be exposed to the sun to dry.

When the bedding gets old, it should be thrown away and replaced by a fresh supply.

IV.—Gate of the stallion stable compound.

To prevent other horses coming into the stallion stable compound, a strong gate should be erected, and walls (not less than four-and-a-half feet high) built around the compound.

V.—Tying up stallions prohibited.

Stallions, when in the stable, are not to be tied up except when being groomed.

Head and heel ropes are not to be used.

The doorways of the stalls should be fitted with strong wooden removable rails.

VI.—Watering.

Stallions should be watered three times a day, and should not be fed till half-an-hour after watering. A horse when watered soon after eating grain is very liable to get gripes.

VII.—Feed of stallions.

A stallion should receive the following rate of rations per diem :—

From 15th September to 31st May.

Gram (crushed)	... ...	2 seers.
Barley (crushed)	... ...	2 "
Bran	... ...	1 seer.
Salt	... ...	¼ chittak.
Green (dub) grass	... ...	20 seers.
Lucerne } when procurable	...	5 "
Carrots } when procurable	...	2 "

From 1st June to 14th September.

Gram (crushed)	$1\frac{1}{2}$ seer.
Barley (crushed)	$1\frac{1}{2}$,,
Bran	1 seer.
Salt	$\frac{1}{2}$ chittak.
Green (dub) grass	20 seers.
Lucerne, when procurable	5 ,,

If the horse can eat more than 20 seers of grass, it should be given to him.

As a fixed rate of feed for all stallions, of different breeds, sizes and constitutions cannot be laid down as suitable for every horse, so may modifications of the above rule be altered by the Assistant Superintendent, Horse-Breeding Department, when deemed necessary.

VIII.—Grooming. Stallions should be well groomed, with the *brush* twice a day.

The brush is to be cleaned with the curry comb.

The curry comb is not to be applied to the horse.

When a horse is not properly groomed, he is liable to have skin-disease.

IX.—Washing prohibited. Stallions should not be bathed or washed, as either one or the other is likely to produce rheumatism and weakness of the loins.

X.—Exercise. Stallions to have about two hours of fast walking exercise morning and evening at a place unfrequented by other horses.

XI.—Picketing stallions out at night. During the summer months, when the stables are hot at night, the stallions should be picketted out in the stable-yard (surrounded by a wall or rail fence), tied by the head only, from 7 P.M. to 4 A.M.

Heel ropes are not to be used in picketing the stallions.

XII.—Stallions to be shod. Stallions are to be shod when shoes are deemed necessary.

When shod, the shoes should be removed, the feet duly reduced, and the old or new shoes applied, once a month.

XIII.—Serving of mares. A stallion should not be allowed to serve more than twice in one day (either one mare twice, or two mares once each), *viz.*, once in the morning and the other in the evening.

He is not to cover more than five times during the week.

He is not to serve more than 50 mares during the year without the sanction of the Assistant Superintendent, Horse-Breeding Department.

When a mare is being covered, both her hind legs and one fore-leg should be hobbled in the usual way.

The period of covering season in the North-Western Provinces is from 15th October to 15th June, and in the Punjab from 1st October to 1st July. But a few horses are left out in the districts to serve mares brought at other times of the year.

XIV.—Branded mares and fillies. Only mares that have been inspected, branded V. R., V. I., and B. M. and registered will be served by the stallions gratis.

Approved fillies and mares from 3 to 14 years of age can be branded.

Mares branded V. R., V. I. and B. M., but *under four years of age*, are not to be served.

In the North-Western Provinces approved mares and fillies were up to the year 1877 branded V. R. Since that time they have been branded V. I. In the Punjab approved mares and fillies are branded B. M. The brand is usually applied on the off or near shoulder; but when desired by owners, it may be applied on the saddle-place.

A branded mare may be covered free of charge by any Government stallion which the owner may select in any district, provided that the horse selected has not served his full complement of (50) mares, and that his services are, at the time, available.

Branded mares covered by Government stallions for three years without giving produce may, at the request of the owners, be struck off the register as barren; the owners given certificates allowing them to sell mares.

XV.—Covering fees.

No fees of any kind are to be given or received by or from owners of branded mares.

The Government stallions are allowed to cover V. R., V. I. and B. M. branded mares gratis.

Ziladárs and stallion-keepers are strictly forbidden to receive any fees directly or indirectly from the owners of V. R., V. I. and B. M. branded mares.

European and Native owners of mares have the option of having their mares branded, and those approved by the Assistant Superintendent, Horse-Breeding Department, and branded will be exempt from the charge of covering fees.

In the event of *European* owners objecting to have their mares branded, a fee of Rs. 20 will be charged for each mare covered, provided the services of a Government stallion are available. The fee of Rs. 20 to be deposited with the officer in charge of Government stallions before the mare is served.

Branded mares are invariably to be allowed the services of Government stallions in preference to unbranded mares, in the event of branded and unbranded mares being brought at the same time to be served.

Any mare not approved of will not be served by any Government stallion.

XVI.—Sickness.

In the event of a stallion becoming ill or getting injured, a report should be sent to the Assistant Superintendent, Horse-Breeding Department.

Should the sickness or injury be of a serious nature, and the stallion fit to be moved, he should be at once sent to the Depôt Hospital for treatment.

If any stallion is found to be weak he should not be allowed to serve, and a report regarding his state should be submitted to the Assistant Superintendent, Horse-Breeding Department.

When a stallion is found not to fill his mares, the circumstance should be reported to the Assistant Superintendent, Horse-Breeding Department.

Stallion-keepers should always have ready at hand the usual colic mixture* and an enema pipe so as to be able to treat such stallions as may get gripes.

*Linseed oil, 4 chks.
Turpentine, 1 oz.
Laudanum, 1 oz.
To be well shaken before given.

The mixture to be given as directed.

As long as the symptoms of gripes continue, clysters of tepid water and oil should be administered.

DONKEY STALLIONS.

XVII.—Feed of donkey stallions.

A donkey stallion should receive the following rate of rations per diem during the covering season :—

Two seers well-crushed gram or barley, or half-and-half of each.

One seer bran.

Quarter chittak salt.

Twenty seers green (*dub*) grass, to be supplied by the syce, or 6 seers hay to be purchased when green grass is not procurable.

When a donkey stallion is not covering, he should receive—

One-and-a-half seer of grain as above described,

Half seer bran,

Quarter chittak salt, and

Green grass or hay as above described.

XVIII.—Donkey stallions. Serving of mares.

Donkey stallions are allowed to serve mares throughout the year; the limit of mares to each donkey may be extended to 75 or 80 during the year

But a stallion should not be allowed to serve more than twice in one day (either one mare twice or two mares once each), *viz.*, once in the morning and the second time in the evening.

He is not to cover more than five times during the week.

Donkeys are not to be issued from Depôt until they have been duly tested and found to serve horse mares. When a donkey is not inclined to cover a horse mare he should be first excited by the presence of a donkey mare; and when ready to cover, the donkey mare should be removed and the horse mare put forward.

Special donkey stallions are to be reserved to serve donkey mares in order that the donkeys kept for mule-breeding may not be mated to donkey mares, and thus become disinclined to serve horse mares.

IX.—Donkey stallions. Shoeing of. Donkey stallions do not, as a rule, require shoeing, but their hoofs should be lowered off with a rasp once a month.

J. H. B. HALLEN,

General Superintendent,

September 1876. *Horse-Breeding Department.*

P. S.—The attention of officials in charge of Government stallions is especially invited to the Memorandum drawn up by C. L. Sutherland, Esquire, on mule-breeding. This gentleman is the best authority on donkey-breeding. The system noted in the Memoranda with regard to the management of donkey stallions when they do not readily cover pony or horse mares should be carefully adopted.

J. H. B. H.

D.—Disposal of dead bodies of Government stallions.

Several instances having recently occurred of reports of the death of Government stallions being unaccompanied with particulars concerning the disease and cause of death, the following rules are laid down for general information, and for favour of being strictly acted up to in future :—

I.—Reports intimating the death of Government stallions to be invariably accompanied with documents furnishing, in detail, full particulars concerning the disease and cause of death, duration of the disease, steps taken to obtain veterinary advice and treatment, and the *post-mortem* examination of the Veterinary Surgeon or Assistant, or salutri attending.

II.—Such reports to be submitted to the officers concerned within 24 hours of the death of the animal.

III.—In verification of the reported death, the branded portion of the skin and the tail of the deceased animal should be forwarded, packed up with ashes in a cloth and securely fastened up to the Officer of the Horse-Breeding Department.

IV.—In the event of a Government stallion dying from anthrax, or any other kind of contagious disease, the following precautions are to be observed in the presence of a responsible officer :—

(*a*). The carcass to be slashed with a knife.

(*b*). The carcass should not be buried under-ground, but cremated (reduced to ashes by burning) by the most inexpensive and effective means ; all gear and clothing belonging to the horse should likewise be completely destroyed by fire.

(*c*). The stall occupied by the horse to be thoroughly disinfected ; the flooring to be dug to a depth of 18 inches ; all the walls thoroughly scraped and thickly white-washed with lime, and the stall should have its doors and windows closed and be fumigated with sulphur. No animal should be allowed to occupy the building until the lapse of two months from date of disinfection.

(*d*). The branded portions of the skin and the tails of horses that die from contagious diseases should, after being carefully inspected and compared with the register by the Officer of the Horse-Breeding Department, be invariably burnt to ashes.

VIII.—When the tickets are given, the Secretary will name the date, hour and place at the fair, [illegible] where horses should be brought for examination. A shamiana, or large tent, or shed to afford shade to the [illegible] mittee, within a temporary rail enclosure, should be erected, to allow of the members to carefully examine the [illegible]. A DICTIONARY OF THE ECONOMIC PRODUCTS OF INDIA.

BY DR. GEO. WATT, C.I.E., REPORTER ON ECONOMIC PRODUCTS.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

THE first four volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India,—animal, vegetable, and lmineral,—each product being treated after a uniform pan, the paragraphs of which give the Scientific, Vernacular and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets; &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages: Volume III is in course of preparation, and will contain the letters D, E, F and G in 534 pages; Volume IV letters G to L in 643 pages. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 2 guineas, *payable in advance*, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

*** No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 3 guineas in England, exclusive of packing and postage.

A DICTIONARY OF THE ECONOMIC PRODUCTS OF INDIA.

BY DR. GEO. WATT, C.I.E., REPORTER ON ECONOMIC PRODUCTS.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

THE first four volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India,—animal, vegetable, and mineral,—each product being treated after a uniform plan, the paragraphs of which give the Scientific, Vernacular and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets; &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages: Volume III is in course of preparation, and will contain the letters D, E, F and G in 534 pages; Volume IV letters G to L in 643 pages. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 2 guineas, *payable in advance*, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

*** No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 3 guineas in England, exclusive of packing and postage.

☞ The subscription list of the above work will be closed on the 1st October next, and thereafter copies will only be obtainable at the rates fixed for non-subscribers.

Appendix C.

Raising of loans in England for indebted zamíndárs.

No. $\frac{9}{694}$, dated Calcutta, 5th April 1889.

From—J. P. HEWETT, Esquire, Offg. Secretary to the Government of India, Home Department,
To—The Secretary to Government, Punjab.

A CASE having recently come to the notice of the Government of India in which the promoters of a loan to be raised in the London market on behalf of a heavily indebted zamíndár endeavoured to obtain an assurance of the approval of the Local Government to the issue of the loan, I am directed, in order to prevent the possibility of misconceptions arising in such matters, to convey to His Honor the Lieutenant-Governor the following expression of the views of the Governor-General in Council on the subject.

2. The Governor-General in Council considers it undesirable that any action should be taken by a Local Government which might be construed as conveying its approval to the issue by an indebted zamíndár of debentures on the London market. Even in the case of a solvent zamíndár His Excellency in Council is of opinion that only the most exceptional circumstances would justify encouragement being given to him by Government to raise a loan in England. I am therefore to request that in any case in which it may appear to His Honor the Lieutenant-Governor to be desirable to give any encouragement to a zamíndár to issue debentures on the London market, the circumstances may be fully reported to the Government of India and its sanction first obtained ; and in every such case it should be particularly stated what precautions will be taken or how the Government is assured that the money to be raised will be properly utilized for the benefit of the zamíndár's estate and tenants.

A DICTIONARY OF THE ECONOMIC PRODUCTS OF INDIA.

BY DR. GEO. WATT, C.I.E., REPORTER ON ECONOMIC PRODUCTS.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

THE first four volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India,—animal, vegetable, and mineral,—each product being treated after a uniform plan, the paragraphs of which give the Scientific, Vernacular and European names ; habitat or source ; history ; properties and uses, both chemical and industrial ; trade statistics ; markets ; &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names ; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages ; Volume II embraces the letter C in 689 pages ; Volume III is in course of preparation, and will contain the letters D, E, F and G in 534 pages ; Volume IV letters G to L in 643 pages. The whole work will, it is expected, be completed in six volumes by 1891 ; but a seventh volume may also be Issued consisting of an Index to all the vernacular and other names contained in the Dictionary ; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 2 guineas, *payable in advance*, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

*** No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 3 guineas in England, exclusive of packing and postage.

☞ The subscription list of the above work will be closed on the 1st October next, and thereafter copies will only be obtainable at the rates fixed for non-subscribers.

A DICTIONARY OF THE ECONOMIC PRODUCTS OF INDIA.

BY DR. GEO. WATT, C.I.E., REPORTER ON ECONOMIC PRODUCTS.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

THE first four volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India,—animal, vegetable, and mineral,—each product being treated after a uniform plan, the paragraphs of which give the Scientific, Vernacular and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets; &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages; Volume III is in course of preparation, and will contain the letters D, E, F and G in 534 pages; Volume IV letters G to L in 643 pages. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 2 guineas, *payable in advance*, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

*** No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 3 guineas in England, exclusive of packing and postage.

☞ The subscription list of the above work will be closed on the 1st October next, and thereafter copies will only be obtainable at the rates fixed for non-subscribers.

Page 41, Circular No. 15, paragraph 13, substitute for paragraph 13 the following:—

In reporting areas fractions should usually be omitted, or, if it is necessary to give them, one place of decimals is sufficient. In the case of large areas, or where land is of little value, it is usually enough to express the areas in acres, bigahs, or kanáls, as the case may be. The only occasion on which it may be necessary to state fractions of an acre to two or more places of decimals is when small areas of valuable land are to be acquired for public purposes.

NOTIFICATIONS.

The 25th September 1891.

No. 205.—*Notification.*—The Hon'ble the Lieutenant-Governor is pleased to [illegible] the following rules made by the Financial Commissioners, under Section 141 of the Punjab Land Revenue Act, 1887 :—

DRAFT RULES.

1. When the produce of any land has been attached in pursuance of an order for attachment and sale addressed to the Collector by a Civil or Criminal Court, the Collector shall direct that an appraisement of the attached produce be made by a revenue officer or the kánúngo of the circle in which the land is situated. The produce shall not be sold until the appraisement has been approved by the Collector or by a revenue officer appointed in this behalf by the Collector.

2. Sales of the produce of land shall be made by a revenue officer or by the field kánúngo of the circle in which the land is situated. When the sale is made by the kánúngo it shall be carried out in presence of a zaildár, inámdár, or village headman appointed in this behalf by a revenue officer.

The field kánúngo shall be entitled to a commission of 5 per cent. on the [illegible] proceeds.

3. When produce sold by a kánúngo consists of moveable property, such as [illegible] that have been reaped, the purchase money shall not be received, nor shall the sale become absolute, until the sale has been confirmed by the Collector, or by a revenue officer [illegible] the Collector. When the produce sold by a kánúngo or revenue officer consists of immoveable property, such as standing crops, sold under orders of a Civil Court, Section [illegible] of Act XIV of 1882 (the Civil Procedure Code) will apply.

Statement of Reasons.

Experience has shown that the rules contained in paragraph 45 of Judicial Circular No. XXVII may lead to a miscarriage of justice when the property to be sold consists of produce of land.

By order, &c.,

Senior Secretary to Financial Commissioner, Punjab.

A DICTIONARY OF THE ECONOMIC PRODUCTS OF INDIA.

BY DR. GEO. WATT, C.I.E., REPORTER ON ECONOMIC PRODUCTS.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

THE first four volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India,—animal, vegetable, and mineral,—each product being treated after a uniform plan, the paragraphs of which give the Scientific, Vernacular and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets; &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of [illegible] royal pages; Volume II embraces the letter C in [illegible] pages: Volume III is in course of preparation, and will contain the letters D, E, F and G in 534 pages; Volume IV letters G to L in 643 pages. The whole work will, it is expected, be completed in six volumes by 1891; and a seventh volume may also be Issued consisting of an Index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 2 guineas, *payable in advance*, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and in England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

*** No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 3 guineas in England, exclusive of packing and postage.

☞ The subscription list of the above work will be closed on the [illegible] October next, and thereafter copies will only be obtainable at the rates fixed for non-subscribers.

A DICTIONARY OF THE ECONOMIC PRODUCTS OF INDIA.

BY DR. GEO. WATT, C.I.E., REPORTER ON ECONOMIC PRODUCTS.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

THE first four volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India,—animal, vegetable, and mineral,—each product being treated after a uniform plan, the paragraphs of which give the Scientific, Vernacular and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets; &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages; Volume III is in course of preparation, and will contain the letters D, E, F and G in 534 pages; Volume IV letters G to L in 643 pages. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 2 guineas, *payable in advance*, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

** No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 3 guineas in England, exclusive of packing and postage.

☞ The subscription list of the above work will be closed on the 1st October next, and thereafter copies will only be obtainable at the rates fixed for non-subscribers.

A DICTIONARY OF THE ECONOMIC PRODUCTS OF INDIA.

BY DR. GEO. WATT, C.I.E., REPORTER ON ECONOMIC PRODUCTS.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

THE first four volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India,—animal, vegetable, and mineral,—each product being treated after a uniform plan, the paragraphs of which give the Scientific, Vernacular and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets; &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages: Volume III is in course of preparation, and will contain the letters D, E, F and G in 534 pages; Volume IV letters G to L in 643 pages. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 2 guineas, *payable in advance*, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

*** No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 3 guineas in England, exclusive of packing and postage.

☞ The subscription list of the above work will be closed on the 1st October next, and thereafter copies will only be obtainable at the rates fixed for non-subscribers.

[An impo]rtant feature of the Dictionary consists in the [fact that] the information is in every instance given [with auth]orities, and with a reference to the origi[nal public]ation. Numerous contributions have, however, [been made of] the results of new discoveries, and confirmed [scien]tific names; so that the Dictionary is not only [a com]pilation of published information, but has [been kept] abreast of the most recent inventions and [discoveri]es.

[Volume I] contains the letters A and B, and consists of [... pages]; Volume II embraces the letter C in [... pages]. Volume III is in course of preparation, and [will conta]in the letters D, E, F and G in 534 pages; [Volume IV] letters G to L in 643 pages. The whole work [will, it is e]xpected, be completed in six volumes by 1891; [a supplem]ent volume may also be issued consisting of an [index o]f the vernacular and other names contained [in the Dict]ionary; and this as a work of reference, it is [hoped, will] prove of considerable value.

[The price t]o subscribers will be in India Rs. 30 and in [England 3 g]uineas, *payable in advance*, for the complete [work. An ex]tra charge for packing and postage will be [made for] the same in India, at 8 annas per volume, and [in England] at 2 rupees 6 annas per volume.

[Copies] bound in half calf or half morocco, Rs. 6 [or 12 shi]llings respectively will be charged extra for the [work].

[No copies] will be issued to non-subscribers till the work is [complete]d, and no single volume will be sold separately. The price [to non-subscr]ibers will be Rs. 40 in India, and 3 guineas in England, [exclusive] of packing and postage.

[The s]ubscription list of the above work will be closed on the [...], and thereafter copies will only be obtainable at [the price fixe]d for non-subscribers.

The week exhibited in this return has been made to end on Saturday, and the return should always reach Lahore, at the latest, by the Tuesday following. In addition to the weekly return a monthly statement of rainfall should be submitted in Form E so as to reach the Director's Office not later than the 5th of the following month. Particular attention is requested to the correct preparation and the punctual despatch of these returns. Any difference in the entries of the monthly statement from those in the weekly returns should be explained. No copies of these returns should be kept in the Collector's Office. The District Kánúngo's register will supply all the information that may at any time be required.

If more than one rain-gauge is kept up at any station the entries in the register should show only the data of one gauge.

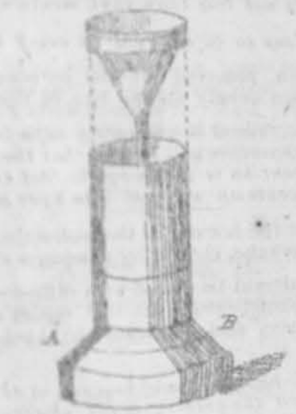
APPENDIX A.

METEOROLOGICAL DEPARTMENT, GOVERNMENT OF INDIA.

RAINFALL CIRCULAR NO. 1 OF 1891.



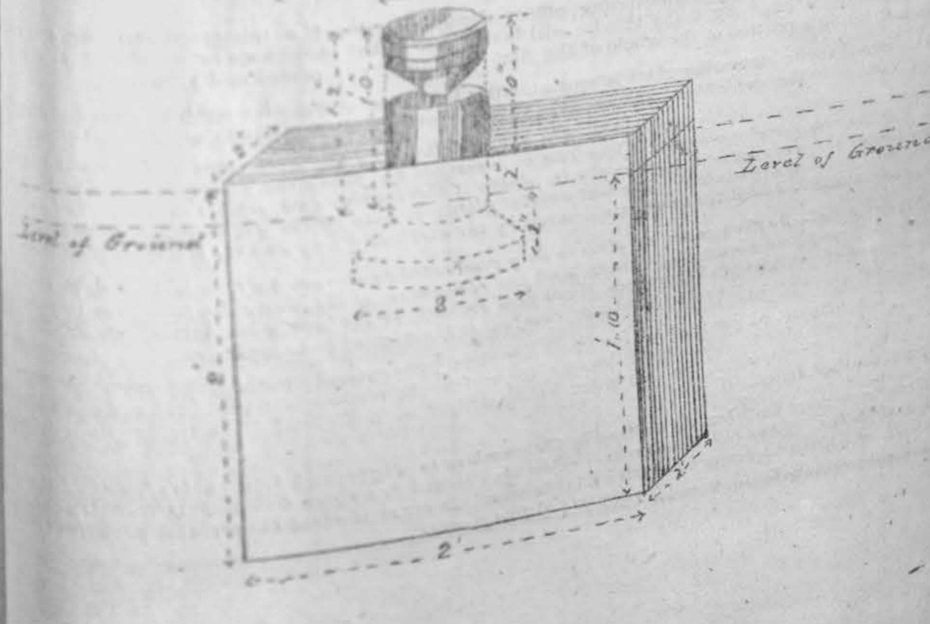
Rules for fixing and use of Symon's Rain-gauge.

I.—Description of rain-gauge and of method of fixing it in position.

1. The rain-gauge which is prescribed by the Government of India for use at all rainfall measuring [stations] in India is that known as "Symon's Rain-gauge" It is a small cylindrical gauge or vessel, five inches in [diamet]er and fourteen inches in height. The rain is received in a funnel provided with a brass rim, which should [be trul]y circular, and be exactly five inches in diameter.

[2.] The water collected by the funnel runs into a glass bottle, and is measured by means of a cylindrical [glass ves]sel which holds one-half inch of rain-water when filled up to a certain engraved mark. The space below [this mar]k is graduated in tenths and hundredths of an inch.

[3.] The gauge is furnished with a foot of the shape shown in the ccompanying figure, which gives a



[stabili]ty of the instrument. The foot gives a firm hold in the brick or masonry mass in which it should be imbedded, [and] prevents it being blown over and assists in keeping it perfectly level. when, as has hitherto been frequently [the] practice in India, the rain-gauge is merely placed in the ground to the depth of an inch or two.

4. The masonry or brick pillar should be at least two feet square and two feet high, buried in [the] ground to a depth of one foot ten inches, so that the top should stand at a height of two inches above the [level] of the ground In this there should be a cylindrical space into which the lower part of the rain-gauge [may be] imbedded. The bottom of this hollow space should be truly horizontal and at a level of two inches [below] the ground and four inches below the level of the top of the pillar, so that the rim of the funnel of the [rain-]gauge when placed in it would be twelve inches above the ground and ten inches above the top of the [masonr]y platform or pillar.

If there is any difficulty in having the pillar properly made, it would be advisable to have the work [done] by the Public Works Department. so as to secure that the instrument is properly level.

[5.] The following gives a sketch of the arrangements:—

4. At rain-gauge stations where a masonry pillar is not provided for the rain-gauge, and the instrument is placed in the ground, it should be carefully noted that the lower part of the gauge should be very firmly buried with the mouth of the funnel one foot above the ground. The cylinder must be vertical and the mouth of the funnel exactly level.

In stormy weather a rain-gauge is liable to be blown over, and its contents spilt, unless it is quite firmly fixed. But the mouth must be so far above ground that no gravel or dust may be blown or splashed into it. The height should not exceed one foot, because the quantity of rain received diminishes with increased elevation. If the gauge be surrounded by grass, this must not be allowed to grow to the edge of the funnel, but must be kept short-clipped. The mouth must be perfectly level, otherwise the gauge will receive more rain when the wind is blowing from the quarter towards which it inclines than when it blows from any other.

5. If the gauge is protected by a railing, the height of the railing above the mouth of the gauge must be not more than half its distance from the gauge.

The mouth of the gauge being one foot above the ground, if the railing be three feet high, it must be at a distance of four feet at least from the gauge; if it were placed at a less distance, it might obstruct a portion of the rain that would otherwise enter the funnel.

II.—Selection of site for a rain-gauge.

6. Fix the gauge in an open place as far as possible from trees, houses, and other obstructions. It should, in no case, be within thirty yards of any building or tree.

The object of this rule is to prevent the obstruction by surrounding objects of any of the rain which should be received by the gauge. When the rain falls in a slanting direction, a tree or a house at a considerable distance to windward evidently offers such an obstruction. On the other hand, the rain-water dropping from the trees at a moderate distance is likely to be blown into the rain-gauge. The instrument should, therefore, be placed at a distance from all such objects not less than that mentioned in the rule.

III.—Precautions to be observed in using the instrument.

7. Whenever the funnel has been removed for the purpose of taking the reading of the gauge, take care in replacing it that it is pressed down evenly on the rim of the reservoir.

If the level of the rim or mouth of the funnel be accurately adjusted by means of a spirit level when it is first placed in position, it is evident that this precaution will ensure that the mouth of the funnel when in position will be always level. The necessity for this precaution is shown by the fact that an inclination of 5° (an angle almost inappreciable to the eyes) of the rim might cause an error of 2 to 3 per cent. in the measurement of the rainfall.

8. Examine occasionally the tube at the bottom of the collecting funnel, to see that it is free from obstruction. Should straw or dirt have entered the tube, clear it by passing a straight wire down it.

9. If the rain-gauge at any station should be placed at a different elevation, and be exposed in a way that is not in conformity with the preceding instructions, a detailed report should be made to the local officer controlling the rainfall registration of the Province, and his sanction obtained to any change that he may consider necessary.

As a rule, it is very desirable that no change should be made in the exposure of a rain-gauge, and the longer it has been exposed under any circumstances the greater is the objection to any change. The reason of this is evident. A change might introduce a considerable alteration in the amount of rainfall measured, and hence might make a comparison with the rainfall data of previous years misleading.

IV.—How to observe and register the rainfall.

10. Measure the rain-water in the gauge every day at 8 A. M. During heavy rains measure it three or four times in the day, lest the receiver fill and overflow; but take the last measurement at 8 A. M., and enter as the rainfall of the day the sum total of all the measurements during the day or previous 24 hours.

8 A.M. is the hour at which the rainfall is measured at all rainfall recording stations in India by order of the Government of India. The entry for any given day in the register book represents the quantity that has fallen during the 24 hours preceding 8 A. M. of that day, and hence 8 hours of which are those of the day of record and 16 hours those of the previous day. It is of importance that the same hour be observed everywhere.

The receiving bottle, as a rule, does not hold more than three or four inches of rain. During heavy falls this quantity is frequently exceeded. If, owing to neglect of the above directions, the receiving bottle has overflowed, the outer cylinder must be taken up, and its contents measured and added to that of the receiver. The gauge must then be reset and levelled.

It is very desirable that the recording officer should examine the rain-gauge every day, even when he is certain no rain has fallen. By doing this he will make sure of the rain-gauge never being choked with dirt, and hence of not losing a portion or the whole of the first rainfall after a period of dry weather.

11. See that the measuring glass is quite empty before measuring the rainfall. Place it on a large dish or in a basin, and pour the contents of the receiver into it slowly and carefully to avoid risk of spilling.

The measure glass usually supplied to rain-gauge stations by the Meteorological Department holds only half an inch. If the receiver contains more than can be measured by filling the glass to the upper mark once, fill it up to the top line of the graduations, then empty it, drain it thoroughly, and refill it as before. Each complete filling represents half an inch of rainfall. The last partial filling is read off the graduation as tenths and hundredths of an inch, and to this is added the amount measured by the previous filling and the sum of the two reported.

For example—*As the measuring glass is only graduated to contain half an inch, if the glass be filled by the rain-water to the top graduation three times, and the remainder of the water measures 24 on the graduated scale, then the amount of rainfall will be three times half an inch, or one and a half inches, together with twenty-four hundredths, that is,* 1·50 + 0·24 = 1·74 *inches of rainfall is the amount to be registered.*

12. The amount of the rainfall for each day should be entered immediately after measurement in a book or register form opposite to the date of the day for which the reading is taken. The reading is to be recorded in inches, tenths and hundredths, the two latter being written as a decimal. The register should be carefully preserved for future reference.

Great care must be taken in writing in the numbers to distinguish between hundredths of an inch, tenths of an inch, and inches. Thus three-hundredths of an inch should be written 0·03 inch, three-tenths of an inch should be written 0·30, and three inches to be written 3·00 inches. In order to avoid the probability of confusion from the omission of the zeros, all entries must show decimals of two places.

13. It would be desirable that every rain-gauge station should be supplied by the local authority with an extra measuring glass, which could be brought into use on the breakage of the measure-glass in ordinary use. When the measure-glass is broken at a rain-gauge station supplied with a spare measure-glass, the latter should be at once brought into use and another measuring glass should be at the same time indented for in the manner prescribed in Circular II and obtained from the Calcutta Meteorological Office.

14. If it should happen that the measuring glass at any station not provided with a spare one should be broken, in that case the following arrangements should be made for the measurement of the rainfall during the interval between the breakage of the measuring glass and the arrival of a new measuring glass, which should be indented for without delay in the manner prescribed in Circular II from the Calcutta Meteorological Office. An ordinary Apothecary's fluid measure-glass should be temporarily used to measure the rainfall (the measurement being entered in the monthly return in fluid ounces) until the broken measure-glass is replaced. In such a case care should be taken to strike out the printed word "inches," and to substitute "ounces," which must be clearly and legibly written. In the event of the measure-glass being broken, and an Apothecary's ounce measure-glass not procurable or available, the rainfall collected on each day must be stored up in a separate bottle and kept [illegible]. Each bottle containing the rainfall for each particular day should be labelled, and on receipt of a new measure-glass the rainfall can be measured and entered as usual.

V.—Register of rainfall.

15. At each rainfall station there should be kept a strongly bound book, for the due care of which the rainfall observer should be held responsible.

The record of the rainfall at that station from the commencement of observations or in continuation of it should be kept in this "Rainfall Book," and the entries in it should be made as neatly as possible, and every care should be taken for its preservation.

16. All forms in which the returns of rainfall are to be made either to the local authorities or the Meteorological Reporter to the Government of India will be either supplied directly by the local officer controlling the rainfall registration in each Province, or the arrangements for their supply will be made by him with the Calcutta Meteorological Office. All applications for such forms should in every case be sent to the local officer controlling the rainfall registration of the Province.

Regulations for supply of Rain-gauges and Measure-glasses.

1 In future all rain-gauges and measure-glasses required at rain-gauge stations in India will be supplied by the Meteorological Office, Calcutta.

2. Whenever a rain-gauge or measure-glass is required at any station, an indent on the enclosed form should be prepared and sent for countersignature to the officer controlling the rainfall registration in the province in which the station is situated. Indent forms can be obtained from these officers. The indent will be forwarded by the controlling officer to the Meteorological Office, Calcutta. That office will, on its receipt, send a rain-gauge or measure-glass, which has been carefully tested beforehand, direct to the station requiring it.

DICTIONARY OF THE ECONOMIC PRODUCTS OF INDIA.

By DR. GEO. WATT, C.I.E., REPORTER ON ECONOMIC PRODUCTS.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

THE first four volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India,—animal, vegetable, and mineral,—each product being treated after a uniform plan, the paragraphs of which give the Scientific, Vernacular and European names; habitat or source; history; properties and uses, medicinal and industrial; trade statistics; markets; etc. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given in quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 685 pages: Volume III is in course of preparation, and will contain the letters D, E, F and G in 534 pages; Volume IV letters G to L in 643 pages. The whole work will, it is expected, be completed in six volumes by 1891; a seventh volume may also be issued consisting of an index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 2 guineas, *payable in advance*, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and to England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs. 6 and 10 shillings respectively will be charged extra for the complete sets.

No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 3 guineas in England, exclusive of packing and postage.

The subscription list of the above work will be closed on the ... next, and thereafter copies will only be obtainable at the rates fixed for non-subscribers.

A DICTIONARY OF THE ECONOMIC PRODUCTS OF INDIA.

BY DR. GEO. WATT, C.I.E., REPORTER ON ECONOMIC PRODUCTS.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

THE first four volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India,—animal, vegetable, and mineral,—each product being treated after a uniform plan, the paragraphs of which give the Scientific, Vernacular and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets; &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages; Volume III is in course of preparation, and will contain the letters D, E, F and G in 534 pages; Volume IV letters G to L in 643 pages. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 2 guineas, *payable in advance*, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

*** No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 3 guineas in England, exclusive of packing and postage.

☞ The subscription list of the above work will be closed on the 1st October next, and thereafter copies will only be obtainable at the rates fixed for non-subscribers.

A DICTIONARY OF THE ECONOMIC PRODUCTS OF INDIA.

BY DR. GEO. WATT, C.I.E., REPORTER ON ECONOMIC PRODUCTS.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

THE first four volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India,—animal, vegetable, and mineral,—each product being treated after a uniform plan, the paragraphs of which give the Scientific, Vernacular and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets; &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages; Volume III is in course of preparation, and will contain the letters D, E, F and G in 534 pages; Volume IV letters G to L in 643 pages. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 2 guineas, *payable in advance*, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

*** No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 3 guineas in England, exclusive of packing and postage.

☞ The subscription list of the above work will be closed on the 1st October next, and thereafter copies will only be obtainable at the rates fixed for non-subscribers.

FINANCIAL COMMISSIONER'S OFFICE.

CIRCULAR MEMO. No. 3 OF 1891.

FINANCIAL COMMISSIONER'S OFFICE,

Dated Lahore, 2nd December 1891.

To

ALL COMMISSIONERS AND DEPUTY COMMISSIONERS IN THE PUNJAB.

Amended rule regarding the treatment of applications for sale of land in execution of decrees.

THE Financial Commissioners desire to draw the special attention of Commissioners and Deputy Commissioners to the following amended rule regarding the treatment of applications for the sale of land in execution of decrees which has been circulated by Chief Court Circular Memo. No. 22—2508, dated 12th June 1889:—

"The Commissioner on receiving the application will, except when the land or interest in land proposed to be sold is hereditary or joint acquired property, and he is of opinion that the sale should be sanctioned, himself pass an order either sanctioning the sale or rejecting the application, and such order will be final.

"In case the land or interest in land proposed to be sold is hereditary or joint acquired property and the Commissioner is of opinion that the sale proposed should be sanctioned, he will, after recording the reasons for his recommendation in the proper column, forward the statement to Financial Commissioner for final orders. The Financial Commissioner will give such orders as to the appearance before him of both or either of the parties as he sees fit."

2. It will be observed that Commissioners have now been invested with final authority to disallow all proposals for the sale of land which is applied to agriculture or pastoral purposes. As before, where such land or interest therein is hereditary or joint acquired property, a sale in execution cannot take place without the previous sanction of the Financial Commissioner.

3. In dealing with applications for sanction, the Financial Commissioner will ordinarily be guided *inter alia* by the following principles to which also due weight should be given by Commissioners when deciding whether they will disallow sales or recommend them for sanction. These principles, which are embodied in the following instructions, which have received the approval of Government, must not be regarded as exhausting the considerations which should govern these cases. They merely indicate broadly the lines on which the Financial Commissioners have hitherto dealt, and will ordinarily deal, with applications for sale of land.

4. Commissioners in making recommendations for sale are expected to state fully and completely the grounds on which they think that sanction should be accorded.

5. Instructions, which have likewise received the approval of Government, are also herewith issued for the guidance of Collectors in taking action under Section 326, Civil Procedure Code. In connection with this it is requested that all Deputy Commissioners will report quarterly, for the periods ending 30th June, 30th September, 31st December, and 31st March, the action taken by them under that section. These reports should reach this office within one month of the end of the quarter to which they relate and should contain the following information:—

(i). Particulars of decree-holder and judgment-debtor.

(ii). Total amount of judgment-debtor's land; where situated; its quality; how much irrigated and how much unirrigated; and the revenue assessment on it.

(iii). What portion of such land (with same particulars) has been alienated, to whom and for what term.

By order, &c.,

A. J. GRANT,

Junior Secretary to Financial Commissioner, Punjab.

[Translated.]

Instructions to Commissioners of Divisions in dealing with applications for sale of land under Rule VI of Judicial Circular No. 27, published with the Chief Court's Circular Memo, No. 22—2508 of 12th June 1889.

1. The Commissioners should reject applications for the sale of land (*a*) when the decree-holder has failed to enforce satisfaction of his decree by the other processes available to him, or (*b*) when the debt is trifling, or when the decree or a considerable portion of it can be liquidated by temporary alienation or rent of the land, or when the debtor is able to give security for the payment of the decree by reasonable instalments.

The fact that the decree-holder declines to take the land in farm or to accept payment of the decree by instalments is not sufficient reason for sanctioning a sale of land, nor of itself is the fact that there is no other means of liquidating a decree. Sale of a larger amount of land than will probably suffice to satisfy the decree will not be sanctioned.

2. When a judgment-debtor depends entirely or mainly on his land, and it is not in excess of what suffices for the reasonable support of himself and his family, an application for sale should ordinarily be rejected.

3. In dealing with applications for sale of land, special weight will be given to the nature of the original debt and the amount of interest included in the decree, and to such circumstances as that the land-owner is a minor or a widow and the debt was incurred by a predecessor in interest, or that the value of the land is insignificant in comparison to the amount of debt; and sale will not be sanctioned when this is open to reasonable objection of the above nature.

APPENDIX.

Instructions for the guidance of Deputy Commissioners taking action under Section 326, Civil Procedure Code.

1. In deciding the period during which, and the terms on which, temporary alienations in satisfaction of money decrees should be made, Collectors should follow as far as may be the spirit of the above instructions for the guidance of the Commissioners in cases of applications for sale of land in execution of such decrees.

2. Collectors intervening under Section 326, Civil Procedure Code, should clearly understand that their action is intended to be for the benefit of the judgment-debtor.

3. Collectors must be careful not to make any such alienation arrangements as amount practically to depriving a judgment-debtor of his ordinary means of support. Therefore, only such land should be temporarily alienated as may be in excess of what a judgment-debtor, who depends entirely or mainly on his land, requires for the reasonable support of himself and those immediately dependent on him.

4. Excess land thus suitable for temporary alienation should not be alienated for a longer period than 20 years, or unless the decree-holder agrees to accept the arrangement made by the Collector in full satisfaction of his decree, including all interest claimable thereon.

FINANCIAL COMMISSIONER'S OFFICE.

The 1*st December* 1891.

Addenda and Corrigenda to Punjab Revenue Circulars No. 266.

Page 509, Circular No. 48, after paragraph 9, add—

9 A. The following extract from a letter No. 650, dated 9th November 1891, from the Revenue Secretary to Government, Punjab, to the address of the Senior Secretary, Financial Commissioner, expresses the views of the Punjab Government as to the rights of Government in the earth salt out of which saltpetre is manufactured :—

"The saltpetre earth is soil of the sites of towns and villages occupied or deserted, and owes, His Honor believes, its peculiar property to the men and cattle who have lived on it.

" * * * In future Settlement Officers should be instructed to treat proprietary profits derived from saltpetre earth as other *sayer* income in assessing.

"Sir James Lyall believes that in practice the Government nowhere in the Punjab claims proprietary right in saltpetre earth or a title to a monopoly of the right of educing saltpetre, though preceding Native Governments may have claimed such a title. All that Government claims is the right of regulating or preventing the manufacture. * * In the Lieutenant-Governor's opinion neither the saltpetre earth nor the educed saltpetre can properly be brought under the term 'spontaneous produce or other accessory interest in land' within the meaning of Section 42 of the Land Revenue Act. It follows that in the opinion of Sir James Lyall the '*Shora*' should not be recorded in the Wajib-ul-arz as Government property. He also thinks that it is neither desirable nor legally possible to levy any additional taxation upon it in the tahsils of the Hissar District recently re-settled."

PUNJAB PUBLIC LIBRARY.

VII—MEETING 1891.

THE Annual General Meeting of Life Members and Committee was held at 6-30 P. M., Monday, 14th December 1891, in the Punjab Public Library.

There were present—

Khán Bahádur Sheikh Nának Bakhsh (in the chair).
Pandit Jowála Datta Prasháda Goswámi.
Lála Bálmukand.
Mián Chirágh Dín.

And by proxy—

Bábu Pratapa Chandra Ray, C.I.E.
Munshi Gyán Chand.

The following statement was read by the Secretary :—

The receipts and expenditure for the past 12 months, *i. e.*, from 1st December 1890 to the 30th November 1891, were as follows :—

RECEIPTS.

		Rs.	A.	P.
(1).	Government Grant	2,400	0	0
(2).	Contribution from Local Bodies	1,095	0	0
(3).	Donations and subscriptions	955	0	0
(4).	Sale of surplus books	138	11	9
(5).	Other receipts	46	5	3
	Total ...	4,635	1	0

EXPENDITURE.

		Rs.	A.	P.
(1).	Establishment	2,643	0	0
(2).	Book-binding	154	9	6
(3).	Printing	52	9	0
(4).	Purchase of books	2,814	1	11
(5).	Purchase of furniture	213	10	9
(6).	Miscellaneous	253	2	6
	Total ...	6,131	1	8
	Total income ...	4,635	1	0
	Total expenditure ...	6,131	1	8
	Difference	1,496	0	8

The expenditure has exceeded the income by Rs. 1,496. This is chiefly due to the large purchases of English and Oriental works that were made in the period under report. The charge under this head amounted to Rs. 2,814 as compared with Rs. 1,002 in the previous 12 months. The excess expenditure was met from the balance in the Bank of Bengal. A further sum of Rs. 1,200 will shortly be spent in the acquisition of more books for the Oriental Section of the Library. It is estimated that the balance in the Bank at the close of the current official year after meeting the above expenditure will be about Rs. 2,500. It will therefore be seen that the resources of the Library have been carefully husbanded while the institution has been kept in a state of efficiency.

During the year the following names have been added to the roll of life members :—

(1). Mr. H. C. Fanshawe.

(2). Mr. J. A. Sinclair.

(3). Sardár Krishna Singh.

(4). Lála Madan Gopál.

(5). Maulvi Inám Ali.

(6). Sayad Fakír Jamál-ud-dín.

In letter No. 314, dated 24th March 1891, from Secretary to Government, Punjab, sanction was communicated to the proposal to reduce the fee for a life-membership from Rs. 100 to Rs. 50. It remains to be seen what effect the new rule will have upon the income, but thus far the improvement has been small.

The number of life members is now 61 against 55 of the previous year. The number of annual subscribers is 76 as compured with 65 of last year.

During the year books to the value of Rs. 2,814 have been purchased by the Library, ... volumes have been presented by the public, so that there has been a large addition to the general stock.

The classified catalogue of the English Department has been revised and much improved, whereby access to the varied literature in the Library offered to the public is rendered more easy. The alphabetical catalogues for the Oriental Department will shortly be brought up to date by means of appendices.

2. The business before the meeting was to elect under Rule 4 of the "Constitution of Committee," two members to be on the Committee for one year. The members appointed last year were :—

Khán Bahádur Sheikh Nának Bakhsh.

Pandit Jowála Datta Prasháda Goswámi.

These members were re-elected to serve on the Committee for the ensuing year.

Proxy papers.

1. The Registrar laid on the table a statement of the proxy papers received.

Honorary degree for Chancellor.

2. In bringing forward the first resolution the Vice-Chancellor dwelt at some length on the eminent services which His Honor the Chancellor had rendered to the University and the cause of education in this Province during the term of his administration. The Vice-Chancellor also referred to the fact that His Honor was the first Vice-Chancellor of the University and had been its Chancellor for more than four years, and mentioned several important results which the University owed to His Honor's watchful care and warm interest. His Honor had, moreover, sanctioned a large and liberal contribution towards the Law School, and the expenses connected with the maintenance of the Oriental College, but for which these two teaching institutions of the University would not have been able to maintain their present efficiency.

The Vice-Chancellor then proceeded to say that it was in recognition of such special services that the Syndicate desired to give to His Honor a fitting acknowledgment before he left this Province by proposing the following resolution :—

That the Honorable Sir James Broadwood Lyall, K.C.S.I., C.S., Lieutenant-Governor of the Panjab and its Dependencies, Chancellor of the University of the Panjab, is by reason of eminent position and attainments a fit and proper person to receive the Degree of Doctor of Oriental Learning, and that under the provisions of Section 16 of the Panjab University Act, the said Degree be conferred upon him honoris causâ.

This resolution was then carried with acclamation.

Rules for Prince Albert Victor-Patiála scholarships.

3. The second proposal—

That the Report of the Sub-Committee, with the Draft Rules for the award of the Prince Albert Victor-Patiála Scholarships as approved by His Highness the Mahárája of Patiála, be sanctioned, and that the Accountant-General, Panjab, be requested to purchase Promissory Notes to the nominal value of Rs. 50,000 from His Highness's donation, as proposed in letter dated 12th June 1891, No. 286, from the Officiating Chief Secretary to Government, Panjab—

was then read and sanctioned (see Appendix I.).

University Auditor's Reports.

4. The third proposal—

That the Reports of the University Auditor on the Current and Funded Accounts for the year 1890, and the Oriental College Accounts for the Official Year 1890-91, and on the Current and Funded Accounts for January—June 1891, and the Oriental College Accounts for April—June 1891, be accepted—

was passed (see Appendix II).

Government Auditor's Reports.

5. The next proposal was—

That the Reports of the Government Auditor on the Accounts of the University for the years 1889 and 1890 be accepted (see Appendix III).

The Vice-Chancellor having explained that the remarks of the Government Auditor in paragraphs 8 and 9 of his Report for 1890 had already been attended to by the preparation of a Stock Register and the appointment of a Board of Accounts under the new Financial Rules whose duty it would be to examine and pass the University accounts, the above resolution was passed.

Investment of donation of Faqír Sayid Jamál-ud-dín.

6. The next resolution—

That the donation of Rs. 1,000 made by Faqír Sayid Jamál-ud-dín, Fellow of the Panjab University, be invested in 4 per cent. Government Promissory Notes, the charges of investment being borne by the Current Account of the University—

was passed unanimously.

Recommendation of candidates for Extra Assistant Commissioners' Examination.

7. The sixth proposal—

That Lála Ganga Sahái, M.A., and Lakhmír Singh, M.A., be recommended to Government as candidates for the Competitive Examination for Extra Assistant Commissioners—

was then read and passed.

Examiners for Middle School Examination, 1892.

8. The proposal—

That the list of Examiners for the Middle School Examination, 1892, recommended by the Syndicate, with amendment of 21st October 1891, be approved—

was then passed (see Appendix IV).

Superintendents for Middle School Examination, 1892.

9. The next resolution was—

That the list of Superintendents for the Middle School Examination for 1892, as recommended by the Syndicate, be approved.

This was carried (see Appendix V).

Examiners for Arts and Oriental Examinations, 1892.

10. The two following proposals :—

That the list of Examiners for the Arts Examinations of 1892, in subjects other than Oriental languages, as recommended by the Syndicate, be sanctioned; and

That the list of Examiners in Oriental languages for the Examinations of the Oriental and Arts Faculties for 1892, as recommended by the Syndicate, be approved

were considered simultaneously and passed with the following changes (see Appendix VI):—

(a). That Dr. Thibaut be nominated to set those papers in Sanskrit in which he was appointed Examiner, and that Dr. Peterson of the Elphinstone College, Bombay, be appointed to award marks to the answer papers;

(b). That the Revd. Velte, Professor, Mission College, be appointed to act in place of Mr. Robertson as Examiner in English paper (b) for European candidates in the Intermediate Examination of the Arts Faculty;

(c). That Mr. F. H. Cope be appointed Examiner in Political Economy for the Intermediate Examination, A. F., in place of the Revd. Atkinson;

(d). That the Revd. S. S. Allnutt be nominated Examiner in Latin papers (a) and (b) for the B. A. Examination.

Superintendent for Law Examinations, 1891.

11. The next proposal of the Syndicate—

That J. C. Oman, Esquire, Professor, Government College, Lahore, be requested to act as Superintendent at the Law Examinations, 1891, on the remuneration paid in 1890—

was then considered, and as Mr. Oman had declined to act, and as the Revd. Macduff subsequently nominated had also intimated his inability to act, it was resolved that Mr. H. E. Clark, B. A., be appointed to superintend the Law Examinations on the above mentioned remuneration.

Conferring of Degrees.

12. The next proposal—

That the Degrees, specified in Appendix VII, be conferred upon the candidates named therein, who are duly certified to have passed the examinations, and fulfilled the other conditions necessary for the several degrees referred to, in accordance with the Statutes, Rules and Regulations now in force, and with the provision of Section 14 of the Panjab University Act—

was then passed.

Award of Medals, &c.

13. The thirteenth proposal—

That the various Medals, Scholarships and Special Prizes be awarded, as specified in Appendix VIII—

was also agreed to.

Examiners for Medical Examinations, 1892.

14. The next proposal was—

That the list of Examiners for the First and Second Examinations for Licentiate and Bachelor in Medicine for 1892, as recommended by the Syndicate, be approved.

It having been pointed out to the meeting that since the above list was proposed by the Syndicate, Dr Barklay had died and Dr. Grant had been appointed Professor of the Medical College, Lahore, it was resolved that the list be adopted with the exception of the above two names (see Appendix IX).

Annual Convocation.

15. The proposal—

That the Annual Convocation of the University be held on the 7th November, 1891, 11 A. M.—

was passed.

Registrar.

APPENDIX I.

Proceedings of the Sub-Committee of the Syndicate nominated to report on the conditions of the award of the Prince Albert Victor-Patiala Scholarships at a meeting held at the Vice-Chancellor's residence on the 15th March 1891.

THE Sub-Committee having carefully considered the terms of the letter of His Highness Mahárája of Patiála, intimating his intention of making a donation of Rs. 50,000 for the ...of founding certain scholarships for deserving students on the Arts side of this ...sity, resolved, with the view of more effectually carrying out the wishes of His ...ness, to submit the following recommendations for the approval of His Highness and ...Syndicate of the University.

2. In order that twelve scholarships should be awarded, each tenable for two years, ...will be necessary to make a provision for six scholarships to be awarded *each* year. These ...ships, according to the wishes of the donor, would require to be distributed amongst ...dents of the F. A., B. A. and M. A. classes ; and in the opinion of the Sub-Committee ...sion might be accomplished by awarding each year—

Two scholarships to students of the F. A. Class at Rs. 10 per mensem ;

Two scholarships to students of the B. A. Class at Rs. 12 per mensem ;

Two scholarships to students of the M. A. Class at Rs. 20 per mensem.

3. This recommendation would involve an annual outlay of Rs. 2,016, and if His ...ness consented, as he probably would, to make his intended donation take the form of ...ernment Promissory Notes of the 4 per cent. loan to the amount of Rs. 50,000, this ...ment would yield an annual income of Rs. 2,000, which, added to the saving that would ...fected in the first year by only six scholarships being awarded, would be sufficient to ...the cost of the scholarships on the scale above recommended. But if the University ...itself to convert the proposed donation of Rs. 50,000 into Government Promissory Notes, ...the present market rate of such securities, the fund would probably be reduced by at least ...1,990. And the annual income on the reduced fund would in that case only represent a ...of Rs 1,920, which would not be sufficient, even with the saving effected in the first ...by the grant of six scholarships, to defray permanently the total cost of carrying out ...recommendation. It would therefore become necessary to reduce the value of the ...ships for the F. A. Class. But the Sub-Committee does not think it is likely that ...Highness the Mahárája would wish the value of these scholarships, intended to bear ...illustrious name of His Royal Highness Prince Albert Victor, to be less than the minimum ...of scholarships already awarded to students of the same class by the University. It ...for this reason that the Sub-Committee is induced to propose that the scale above men... ...be adopted contingent on His Highness transferring to the University Government ...issory Notes of the value of Rs. 50,000 to constitute the endowment.

4. As regards the conditions under which the proposed scholarships should be ...ed, the Sub-Committee in framing the Rules appended to this Report has kept in ...His Highness's desire to promote the study of English, and to benefit, as far as possible, ...ents of good family in straitened circumstances. The Sub-Committee has accordingly ...tuted the Rules that, while the award of these scholarships shall depend on proved ..., persons of the condition contemplated by the donor, *cæteris paribus*, be preferred.

5. The Sub-Committee further recommends that the rule which at present prevails ...the case of Government and University Unendowed Scholarships, whereby a student is ...vented from holding such a scholarship in conjunction with any other Government or ...dowed Scholarship, shall be applied to those students who succeed in gaining an ...*Albert Victor-Patiála Scholarship.* Some such rule as this is necessary to prevent rewards of ...kind, intended to act as general incentives, from falling into the hands of a few of the ...most successful students. But the rule will not prevent an *Albert Victor-Patiála Scholar* ...obtaining also a Special Endowed Scholarship or Exhibition, such as the Fuller ...Exhibition.

President, Sub-Committee.

I HAVE the honor to submit my report on the Accounts of the Panjab University for the Calendar year 1889, in accordance with the instructions contained in your letter, No. 1029 ($\frac{\text{Home}}{\text{General,}}$), dated the 28th June 1889.

2. The first point to be noticed is the delay which has occurred in submitting the accounts for audit, and which scarcely satisfies the requirements of Section 21 of the Panjab University Act, XIX of 1882, where it is enjoined that the accounts of the income and expenditure of the University shall be submitted once every year to the Local Government for such examination and audit as the Local Government may direct. The reason for this delay seems to be that until these accounts had been audited by the Auditor appointed by the University, and had been submitted to and passed by the Senate, they were not considered to be in a form which admitted of examination by the Government Auditor. I am sure that such a great delay will not be allowed to occur again, but some delay seems to be inevitable under the present system of a double audit, which is expensive, without affording any counterbalancing advantages. It would be convenient to my office, and would certainly add to the value of my audit, if I could conduct my examination of the accounts immediately after the close of each quarter.

3. The next point to be noticed is that, during the year 1889, some of the accounts were kept according to the Calendar, and others according to the Financial Year; but this will be remedied in future, as the Senate has decided that all the accounts and estimates shall be regulated by the Financial Year.

4. The points noticed in my predecessor's report on the accounts of the year 1888 have received the consideration of the Syndicate and Senate.

5. The Government grants appear to have been legitimately expended on the objects for which they were granted, and the safe-custody certificate of the Bank of Bengal for the Government Securities deposited with it has been agreed with the corresponding amounts in the Cash Book and Ledger. These securities amounted to the nominal value of Rs. 4,13,500,—Rs. 2,23,900 appertaining to Special Funds, and Rs. 1,89,600 to the General Endowment Fund.

6. Transfers amounting to Rs. 17,500 were effected during the year between the Funded to the Current Accounts. These were duly sanctioned by the Senate as required by clause 4 of the Financial Rules of the University.

7. The consolidated Balance Sheet required by the last clause of Rule 19 has been prepared and *filed* with the accounts.

8. The Account Books of the University have again not been signed by the Chairman or by a member of the Syndicate appointed by him, but have been signed by the Registrar alone. This point has been lately considered by the Senate, and new arrangements have been made for it in clause 23 of the new Financial Rules.

9. The Stock Register prescribed in clause 22 (v) has not been kept, but a "nominal and numerical list" of the stock in hand is under preparation.

10. The payments during the year include some charges that had remained outstanding for a long time. This was due, I understand, to special causes; and liabilities, it is understood, will be more promptly discharged in future.

11. The following are the more important donations received during the year:—

(1). Rs. 1,000 from the Wakefield Memorial Committee for the "Wakefield Scholarship" of the value of Rs. 3 per mensem.

(2). Rs. 500 from the Director, Public Instruction, for the "Cooper Medal Fund," which was founded in 1868 by Mr. J. C. Parry, late Manager of the Delhi and London Bank.

12. The "Internal Audit" prescribed by clause 18 of the Financial Rules has not ...strictly carried out, inasmuch as the accounts of the Registrar were not examined ...-yearly or oftener." This was due, I understand, to the fact that after Colonel ...'s resignation, in July 1889, no Auditor was appointed by the Senate till June ...

13. During the year the General Endowment Fund was debited with charges ... appertained to certain Trust Accounts because these Trust Accounts were not in ... to meet them. The whole of these Trust Accounts have, I understand, been investi-...d by the Senate, and arrangements have been made for placing them in future on a ...ctory foundation.

14. A memorandum is appended showing in what cases the Budget allotment was ...ed during the year. These excesses are attributed to (1) arrears for scholarships and ...s of the previous year having to be disbursed in 1889, (2) arrears of income tax for ... preceding year, (3) arrears of contingencies of the Engineering Class for a period ... to 1st April 1889, when the expenditure under this head was transferred to the ...nt Account, and (4) to the payment of arrears for printing charges.

15. In conclusion I may add that from an examination of the accounts I am ...ed that the financial condition of the University was sound in the year 1889, and ... the books submitted for audit were carefully and really kept.

Memorandum referred to in para. 14 *of letter, No.* 9958, *dated 2nd July* 1891.

Midwifery and Diseases of Women and Children.	(*Written*).	The Professor of Midwifery, Grant Medical College, Bombay.

representative of the Senate, by whose unanimous resolution, passed at an exceptionally crowded meeting, I am authorized to admit one, for whom we all entertain the greatest personal regard, to one of the highest honors in the gift of this University, makes the discharge of this function, so pleasing to me on personal grounds, a source of still greater pleasure and gratification.

Gentlemen, the Degrees which this University can bestow as honorary distinctions have always, I rejoice to say, been jealously guarded, and I earnestly hope will never cease to be so. Looking back through the decade of years that the University has enjoyed its Charter of Incorporation, it will be found that these distinctions have been conferred with no lavish hand, but in a manner to which no caviller, however much disposed, could raise any reasonable objection.

We have at present on our roll six Doctors of Oriental Learning and two Doctors of Literature, and there is no name amongst them which would not merit high distinction from any University, while most of them are names of distinguished persons who had already received high academical honors from Universities in the far West.

We are now again about to confer a similar distinction upon one whose never-failing presence has become a familiar and welcome feature of our annual Convocations, and whose name will also, I am sure, be always honoured in this Province, alike by his own countrymen as by the people he has for nearly five years so wisely and justly governed. As our first Vice-Chancellor, and, more recently, as Chancellor for over four years, Sir James Lyall has rendered services to the University, and to the cause of education generally in the Panjab, which have already borne much good fruit in the past, and will, there is every reason to believe, continue to do so in the future. His educational policy, if I may make bold to say so, has been one of progress, but of progress not out of season; and he has endeavoured to make it understood that no scheme of Higher Education can possibly take permanent root in a country unless the people themselves are determined to co-operate in the movement, and not simply to rely upon Government support and encouragement. But ever anxious to promote the welfare of the University, Sir James Lyall has at all times shown himself willing to introduce reforms that were needed, and to meet the growing requirements of Higher Education in the Panjab by large and liberal contributions, but for which the two teaching Institutions attached to this University would not have been able to maintain the degree of efficiency they can now boast of.

During his incumbency as Chancellor, several momentous changes have been introduced; the system of examinations has been changed, and instead of bifurcating studies at the commencement of an under-graduate's University life, it has been postponed to a period when he has passed the Entrance and Intermediate Examinations, and is ready to proceed to his Bachelor's degree. At this stage the under-graduate may be assumed to have added something substantial to his general stock of knowledge, and is in a better position to specialise his studies.

The University has in other directions also expanded its usefulness and improved its position. But in doing so it has had to pass through a period of severe trial, which for a time checked its progress and affected its popularity. Thanks, however, mainly to our Chancellor's firm and impartial attitude, to his sympathetic support of those who were striving to reconstruct the University on still surer foundations, and to his generous and timely pecuniary aid, he has now the gratification of seeing the institution he has so greatly helped to create rising anew to a position which commands respect and honour.

During his incumbency, again, and through his strong recommendation, the University has obtained the further privilege of being able to confer the Degrees of Bachelor of Laws and Doctor of Laws—a proof that the University has completely rehabilitated itself in public estimation, and now enjoys the confidence of the Supreme Government of this country. Another very important work completed during Sir James Lyall's Chancellorship has been the revision of the various regulations for Degrees, which are now for the first time placed on a footing when it is no longer necessary to wade through several volumes of proceedings in order to ascertain by whom and when a particular regulation was sanctioned.

In all these matters our Chancellor has taken a keen and constant interest, and I can truly say that, but for his warm support, his wise moderation, and his ready appreciation of the labours of others, the task of re-building a fabric whose walls were suddenly found, if I may be allowed to use the metaphor, to be bulging out of the perpendicular, would have been rendered still more difficult, and devoid of the one ray of sunshine which cheered those who were engaged in it amidst the dark and ominous clouds which hovered round them.

It is in recognition of special services of this kind, and of the exalted position which he has attained in the Government of this country by devotion to his duty, and by hard and honest work, that kind of work which should serve as an example to the rising generation amongst us, and which springs from—

'Zeal, and the virtue to live by faith
'As soldiers live by courage,'

that we have resolved to add the name of Sir James Lyall to the roll of these distinguished persons who have already received from this University the high distinction of Doctor of Oriental Learning.

Such a distinction, it is believed, is particularly appropriate, on the eve of the close of his Indian career, for one who has helped to give this University its distinctive Oriental side, who is more familiar with the inner life of the people of this Province than any other Englishman I know of, who has spent the greater part of his career in the Panjab, and who is one of the last batch of Civilians who came from Haileybury—all of whom have since highly distinguished themselves—the contemporary, in fact, of Sir Auckland Colvin, Sir Charles Bernard, Sir Charles Grant, and Sir Philip Hutchins, men of whom it may be said that they have cast a fitting and brilliant glow on the sunset of a service which had given to India so many famous administrators and scholars, whose names will survive so long as India has a history, and there are men who take a pride in the great deeds of departed great ones.

"I shall now read the Resolution of the Senate to which I have referred":—

That the Honorable Sir James Broadwood Lyall, K. C. S. I., C. S., Lieutenant-Governor of the Panjab and its Dependencies, Chancellor of the University of the Panjab, is, by reason of eminent position and attainments, a fit and proper person to receive the Degree of Doctor of Oriental Learning, and that under the provisions of Section 16 of the Panjab University Act, 1882, the said Degree be conferred upon him *honoris causâ*.

The Vice-Chancellor then, with the assistance of the Registrar, conferred the Degree of Doctor of Oriental Learning on His Honor with the following words:—

Barhasb-i-qarárdád-i-Senate ki hála khwánda shud wa ba ikhtiyáre ki mará ba haisíyat-i-Vice-Chancellor-i ín University hásil ast, man darja i Hakím-i-ulum-i Mashraqi (degree of Doctor of Oriental Learning) pesh [illegible]-i-mu'allá mikunam, wa ín Sanad (Diploma) [illegible] miguzaram nishan-i-ost, wa ikhtiyár [illegible] ki hazur ín libas ra ki 'ala-mat-i-ín darja (degree) muqarrar ast zeb-i-tan-i mubárik bi farmaind.	In accordance with the Resolution of the Senate just read, and by virtue of the authority vested in me as Vice-Chancellor of this University, I admit Your Honor to the degree of Doctor of Oriental Learning, and in token thereof I present to you this diploma, and authorize you to wear the robes ordained as the insignia of this degree.

The Registrar then reported to the Chancellor the names of the persons who, having successfully passed the Examinations prescribed by the several regulations since the last Convocation of the University, had been recommended by the Senate for degrees under Section 41 of the Panjab University Act.

When these presentations had been made His Honor the Chancellor then addressed the Convocation as follows :--

MR. VICE-CHANCELLOR, FELLOWS, GRADUATES, AND UNDERGRADUATES,—I beg in the first place to express my sincere gratitude for the high honour which the University has this day done me by admitting me to the Degree of Doctor of Oriental Learning, *honoris causâ*. I am proud to have held for a time the offices of Vice-Chancellor and Chancellor, and I accept this Honorary Degree which the Senate itself has now conferred on me as a proof that the Senate has taken a kindly and favourable view of the way I have done my duty in those offices. In this sense, I attach a double value to the honour conferred on me to-day, and, being so soon about to leave India, I am delighted to think that, as the holder of this Degree I shall, while I live and wherever I may be, retain my long connection with the Panjab University.

Having expressed my thanks, though much less eloquently than I could have wished, I will now, gentlemen, turn to the past year's events and operations of the University. It seems to me to have been another year of quiet and useful progress: much valuable work was done on the deliberative side. The regulations for the Arts and Oriental Examinations were revised on many minor points. Among the changes made may be mentioned, as of special importance, the revision of the marks to be allotted to History, Philosophy, and Physical Science, which have hitherto had perhaps less than due importance attached to them, and the confining of the M. O. L. Degree to high attainments in Oriental Classical Languages only.

The regulations for the Medical and the Law Examinations were also revised, and the financial regulations were put at last on a thoroughly sound basis, provision being made for the constitution of a Board of Accounts to advise on all matters connected with the finances. These and other lesser measures carried during the year cannot fail to have a beneficial effect on the working of the University, and I congratulate the Senate on their adoption.

I see that the meetings of the Senate during the year were not frequent; but the work of the Syndicate and Faculties was considerable; and it is due to the labour of these bodies, and to that of a comparatively small number of working Fellows headed by the Vice-Chancellor, the Deans, and Secretaries, that so much good work was achieved. I hope and expect that, as the University grows in name and fame, and as its requirements increase, the number of Fellows able and ready to work and to give regular attendance at the Faculty Meetings will grow in proportion.

The greatest event of the year was the concession to the University of the power to grant Degrees in Law. It was a great satisfaction to me to find that I was able to strongly support the application of the Senate for the grant of this power. The concession cannot fail to give a stimulus to the study of Law in the Province, and to add in some measure to the attractions and dignity of a most honourable profession.

Another very important event was the re-appointment of the Hon'ble the Vice-Chancellor for a third term. His consent to remain on after the expiration of his second term of office was a fresh proof of his high public spirit and continued interest in the progress of the University.

Since his re-appointment, he has been able to draft the new Regulations for the Degrees in Law as well as the revised Financial Rules, which will remain by themselves important memorials of his third term of office. We have, gentlemen, to deplore the loss of one member of the Senate during the year, namely, Pandit Ishwar Chandra Vidyasagar, C. I. E. The Pandit's residence in Calcutta rendered it impossible for him to take an active share in the work of this University, but we had his sympathy and sometimes his counsel, and his death is felt even in the Panjab. The Pandit had long occupied a very high place among Sanskrit scholars; and now that he is gone, I hope that some students of the Panjab may be moved by the contemplation of his high character to emulate his devotion to Sanskrit learning. The Panjab at present, notwithstanding its Orietnal College, is slow to produce anything like distinguished Oriental scholarship of a literary nature; and the reason of this and the possible remedies are subjects which, I venture to think, will soon have to occupy the serious attention of the Senate. In respect to the examining work of the year, I am glad to see that the aggregate number of candidates examined exceeded by 50 the number examined in the previous year. The rise was in the Entrance and Oriental language examinations which is satisfactory and hopeful for both the main objects of the University.

You will have observed, gentlemen, that 39 students were admitted to the Bachelor of Arts Degree at this Convocation, which is the highest number yet attained, and that this year for the first time three students have passed the second Bachelor of Medicine examination, and have been admitted to that Degree. On the other hand, the results of the Second Examination for Licentiate in Medicine were decidedly bad: this is much to be regretted but the Medical College is now under such good guidance and so full of students that I feel sure that the failure is only temporary.

The examinations in Oriental languages seem to have been well attended and successful, and, generally, thanks principally to Dr. Stein, the prospects of the purely Oriental side of the University have never looked better.

In this connection I am glad to add to the notice in the Report my own recognition of the very liberal endowment of a prize for proficiency in Arabic by my friend Fakír Sayid Jamál-ud-dín, Honorary Magistrate and Fellow of the University.

On the whole the Report seems to prove the University to be in a decidedly prosperous and progressive condition, and I beg to congratulate the Senate on the past year's working.

Mr. Vice-Chancellor and gentlemen, I hope I shall not be keeping you too long, but as this is the last time I shall address a Convocation, I think it may be useful if I try to sum up very briefly and roughly what has been done in educational matters since I first addressed you in the Convocation

of December 1887. You will remember that at that moment, as the Hon'ble the Vice-Chancellor has already remarked, the University was under a cloud, and its administration seemed to be surrounded by difficulties.

Well, in looking back on the past five years of the history of the University, the most satisfactory reflection is that those difficulties which seemed to beset its administration in 1887, have all disappeared, and that it is now, in all respects, in excellent working order. To the Honorable the Vice-Chancellor and a small body of working members of the Senate this is mainly due. During this period the Syndicate was reconstituted on an elective basis; the Faculties were modified so as to work under a Dean or special President, and Boards of Studies were formed; and it is mainly on the work of these bodies that the success of the University will be maintained. The Oriental College was thoroughly reorganized in 1888, and placed on a sound footing as a seminary for instruction in Oriental studies. The examination standards in Arts and Oriental learning were revised in 1890, and later all the examination regulations have been slightly modified on minor points. New regulations were imposed on the Law School in 1888; and the concession of the power to confer Degrees in Law has, as I have already noticed, been followed by an entire revision of the Law Examinations. Among minor, but important, matters, a clerical and commercial course of study for High Schools, as distinct from the ordinary Entrance course, was drawn up by the University, and an alternative Science course for High Schools has been under prolonged consideration; finally, it may be mentioned that the Final Standard Examination as prescribed for European Schools in India has been recognised as equivalent to the Entrance Examination. The period has been mainly one of reform and consolidation but some new steps have also been taken in useful lines.

Outside the sphere of the University a good deal has been done by Government or by the people during the past five years for the advance of education. In my address at last year's Convocation I mentioned how much had been accomplished or was being attempted by the independent action of the Hindu, Muhammadan, and Sikh communities. As Lieutenant-Governor I have tried to encourage the education of the agricultural classes by the opening of Zamíndári Schools and the founding of Zamíndári scholarships. It is not easy to do much for technical education at present in this Province, but something has been attempted by strengthening the staff of the Mayo School of Art, by establishing the Railway Technical School at Lahore, by helping Industrial Schools by the offer of grants, and by laying down a definite scheme of study for their guidance. I am glad to see that the new buildings for the Railway Technical School are now complete and ready for use. Physical education has, I think, been undoubtedly advanced during the period by reducing it to system, by requiring play-grounds and gymnasia to be kept up, and by prescribing matches and tournaments. Female education remains at a low ebb, but is more extended and more genuine in character than it was, and a Middle Standard Examination has been laid down, in which girls are beginning to appear. An Inspectress of Schools of much zeal and ability has also been appointed, and it remains for the people themselves, and especially the enlightened among them, to advance this most important cause. No race which withholds education from the women of its upper classes, can expect to take its place among the really civilized nations of the world.

As to moral training, the necessity of attending to this has been emphasised on every occasion. It was never neglected by a few of the best of our Professors and Masters; but from what I have heard, and myself observed, I believe that it may be said the general body of teachers have lately begun to pay more systematic attention to this subject, and to that of the improvement of the manners of their pupils. If the result still seems disappointing, we must remember what His Excellency the Viceroy truly said at the Convocation of 1889. He remarked that without help from the tone of opinion of the home and of the country the lectures and teaching from books of Professors and School Masters have little effect in moral training; and that the virtues which we most wish to see fostered in young students, such as truthfulness, purity, modesty and respect for parental and other authority, are, even in countries with the very best system of public education, obtained much more by home influence and example and by the tone of public opinion than by school and college teaching. Though this is true, I at the same time believe that the good which can be done in this country by the aid of school books and lectures is of very appreciable value, and that something more considerable can be done by the personal example and influence of Masters and Professors out of school hours, and by the care with which they look after the conduct of Boarding Houses. In this connection I am glad to have been able to promote the sanction this year of a Boarding House and residence for a Professor in charge to be attached to the Government College at Lahore which is so closely connected with the University.

In conclusion, I wish to say a few words specially to Graduates and Undergraduates. In seeming to admit in what I have already said that the result of the moral training in our schools and colleges is disappointing, I do not mean to imply that I think that there has been any deterioration of morals among the educated classes in this country. On the contrary, I am glad to believe, and I think that those who know the Province best are agreed, that the moral standard of the better educated students in our schools and colleges has risen very considerably with their education: there may have been some deterioration in polish of manners and respect for authority, but in general matters of morals there has been an advance, though not in proportion to the advance in education. The idea of actual deterioration which some people express is perhaps due to the fact that the higher educated a man is the more glaring and less excusable his moral deficiencies must appear. I hope that all you graduates and undergraduates in this [illegible] will remember that, in proportion to your education, more is expected of you in morals and manners. You believe yourselves to be intellectually the light of your generation, of the world in which you live. Try your best to be a light to it also in the matter of morals and manners. In this country of varying faiths it is difficult to tell you to get help from religion, though a sense of duty before God may be learnt by a thinking mind from all religions, but there is one course which can be safely recommended to you all as sure, not only to be morally bracing, but to also help you greatly in every other worthy object of ambition. The [illegible] man is the duty of continuous self-culture of mind and body. Do not give up the careful study of books because you have passed your examinations, and do not give up athletic exercises because you have left the College play-grounds. Strive to keep a healthy and active mind in a healthy and active body, and to train yourself to be ready at any moment for the next duty that comes to hand, and fit to do it quickly and completely.

"19. For the purposes of section 12 of this Act, and clause (*f*) of section 18 of the Sea Customs Act, 1878, as amended by this Act, the Governor General in Council may, by notification in the Gazette of India, declare what classes of goods are included in the expression 'piece-goods, such as are ordinarily sold by length or by the piece.' VIII of 1878.

Determination of character of goods by sampling.

"20. (*1*) The Governor General in Council may make rules, for the purposes of this Act, to provide, with respect to any goods which purport or are alleged to be of uniform number, quantity, measure, gauge or weight, for the number of samples to be selected and tested and for the selection of the samples.

"(*2*) With respect to any goods for the selection and testing of samples of which provision is not made in any rules for the time being in force under sub-section (*1*), the Court or officer of customs, as the case may be, having occasion to ascertain the number, quantity, measure, gauge or weight of the goods shall, by order in writing, determine the number of samples to be selected and tested and the manner in which the samples are to be selected.

"(*5*) The average of the results of the testing referred to in sub-section (*3*) and of the further testing under sub-section (*4*) shall be conclusive proof of the number, quantity, measure, gauge or weight, as the case may be, of the goods.

"(*6*) Rules under this section shall be made after previous publication.

Information as to commission of offences.

"21. An officer of the Government whose duty it is to take part in the enforcement of this Act shall not be compelled in any Court to say whence he got any information as to the commission of any offence against this Act."

STATEMENT OF OBJECTS AND REASONS.

IN February last a Committee consisting of three officers of the Government, a representative of the Bengal Chamber of Commerce and a representative of the Calcutta Trades Association was appointed by the Governor General in Council for the purpose of considering, and submitting a report with respect to, certain matters connected with the working of the Indian Merchandise Marks Act, 1889.

2. The last paragraph of the report of the Committee, which was submitted in March last, was as follows:—

"10. We have considered some other questions in addition to those referred to us:

(1) We consider that a section should be inserted in the Act giving power to the Governor General in Council to define from time to time the term 'piece-goods'. Such an amendment is required to give statutory effect to the regulation we have proposed that only certain goods should be treated as piece-goods.

(2) It has been suggested to us that it is a hardship to require in section 10 of the Act [section 18 (*e*) (*ii*) of the Sea Customs Act] the name of both place and country on goods not made in the United Kingdom or British India. We think the objection reasonable and that it is sufficient to require the name of the country. We recommend that section 18 (*e*) be amended accordingly.

(3) We recommend the insertion in the Act of a section giving the Governor General in Council such a power with respect to yarns and certain other goods as in the case of petroleum is given to the Local Governments by section 8 (*1*) (*a*) of the Petroleum Act, XII of 1886.

(4) We also recommend the insertion in the Act of a provision similar to that contained in section 125 of the Indian Evidence Act, 1872, as amended by Act III of 1887. We make this suggestion because we think it desirable that Customs Collectors should not be compelled to disclose the names of their informants."

3. The Governor General in Council has accepted the suggestions of the Committee with respect to the amendment of the Indian Merchandise Marks Act, 1889; and the object of this Bill is to give effect to those suggestions.

The 9th January, 1891.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 9th January, 1891:—

NO. 3 OF 1891.

A Bill to amend the Indian Penal Code and the Code of Criminal Procedure, 1882.

WHEREAS it is expedient to amend the Indian Penal Code and the Code of Criminal Procedure, 1882; It is hereby enacted as follows:— X of 1882.

Amendment of section 375 of the Indian Penal Code.

1. In section 375 of the Indian Penal Code, in the clause marked *Fifthly* and in the *Exception*, the word "twelve" shall be substituted for the word "ten". XLV of 1860.

Amendment of Schedule II to the Code of Criminal Procedure, 1882.

2. In Schedule II to the Code of Criminal Procedure, 1882, for the entry respecting section 376 of the Indian Penal Code the following shall be substituted, namely:— X of 1882. XLV of 1860.

Column 1.	Column 2.	Column 3.	Column 4.	Column 5.	Column 6.	Column 7.	Column 8.
376	Rape— If the sexual intercourse was by a man with his own wife.	Shall not arrest without warrant.	Summons	Bailable .	Not compoundable.	Transportation for life, or imprisonment of either description for 10 years, and fine.	Court of Session.
	In any other case .	May arrest without warrant.	Warrant .	Not bailable.	Ditto .	Ditto . .	Ditto.

STATEMENT OF OBJECTS AND REASONS.

THE fifth clause of section 375 of the Indian Penal Code declares that the offence of rape is committed whenever a man has sexual intercourse with a woman who is under ten years of age with or without her consent. The exception to the section provides that sexual intercourse by a man with his own wife, the wife not being under ten years of age, is not rape. The limit at which the age of consent is now fixed favours the premature consummation by adult husbands of marriages with children who have not reached the age of puberty, and is thus, in the unanimous opinion of medical authorities, productive of grievous suffering and permanent injury to child-wives and of physical deterioration in the community to which they belong. It has, therefore, been determined to raise the age of consent to twelve, and the Bill effects this purpose by substituting the word "twelve" for "ten" in the fifth clause of section 375 of the Indian Penal Code and the exception to that section. In order to prevent the possibility of vexatious and unjustifiable interference with the domestic concerns of respectable people which might result from the raising of the age of consent, it has been determined to withdraw the offence of rape, when alleged to have been committed by a husband on his wife, from the cognizance of the police, and the alteration of Schedule II of the Criminal Procedure Code of 1882 contained in the Bill has been made with this object.

(*b*) a tax on persons practising any profession or art or carrying on any trade or calling in the municipality;

(*c*) a tax on all or any vehicles, boats, animals used for riding, driving, draught or burden, and dogs, *when the vehicles, boats, animals used as aforesaid, and dogs, are* kept within the municipality;

(*2*) In this section "annual value" means the gross annual rent for which buildings and lands liable to taxation may reasonably be expected to let, and, in the case of houses, may be expected to let unfurnished:

Provided that, in the case of land assessed to land-revenue or of which the land-revenue has been wholly or in part released, compounded for, redeemed or assigned, the annual value shall, if the Local Government so directs, be deemed to be double the aggregate of the following amounts, namely:—

(*a*) the amount of the land-revenue for the time being assessed on the land, whether such assessment is leviable or not; or, when the land-revenue has been wholly or in part compounded for or redeemed, the amount which, but for such composition or redemption, would have been leviable; and

(*b*) when the improvement of the land due to canal-irrigation has been excluded from account in assessing the land-revenue, the amount of the owner's rate or water-advantage rate or other rate imposed in respect of such improvement.

House-scavenging-tax.

When a committee has, in exercise of the powers conferred by this Act, undertaken the house-scavenging of any house or building, it may charge the occupier of such house or building, in respect of the house-scavenging done for him, with a tax, imposed in the manner by this Act directed, of such amount or at such rate as it thinks fit.

44. (*1*) Besides the taxes mentioned in the foregoing sections, a committee, with the previous sanction of the Local Government, may, for the purpose of constructing or maintaining works for the supply of water to the municipality or paying the principal or interest of any loan raised for the construction of such works, impose, in the manner by this Act directed, a tax, to be called the water-tax, upon buildings or lands which are so situated that their occupiers can benefit by the works.

(*2*) The rate or amount of the tax so imposed on different buildings or lands may be determined with reference, among other considerations, to their distance from the nearest point at which the water is deliverable by the works and to their level; but in fixing it regard shall be had to the principle that the total net proceeds of the tax, with the estimated income from payments for water supplied from the works under special contracts, should not exceed the amount required for the said purposes.

Procedure in imposing taxes.

45. (*1*) A committee may, at a special meeting, pass a resolution to propose the imposition of any tax under section *42*, section *43* or section *44*.

(*2*) When such a resolution has been passed, the committee shall publish a notice, defining the class of persons or description of property proposed to be taxed, the amount or rate of the tax to be imposed and the system of assessment to be adopted.

(*3*) Any inhabitant objecting to the proposed tax may, within thirty days from the publication of the notice, submit his objection in writing to the committee; and the committee shall, at a special meeting, take his objection into consideration.

(*4*) If no such objection is received within the said period of thirty days, or if such objection, having been considered as aforesaid, is deemed insufficient, the committee may forward its proposals to the Local Government, with the objections (if any) which have been submitted as aforesaid, and its decision thereupon.

The Punjab Municipal Bill, 1891.

(Chapter III.—Taxation.—Sections 46-52.)

(*5*) The Local Government, on receiving such proposals, may sanction the same, or refuse to sanction them, or return them to the committee for further consideration.

(*6*) When the Local Government sanctions any such proposals which require the further sanction of the Governor General in Council, it shall submit the same to the Governor General in Council, with the objections (if any) received through the committee; and the Governor General in Council may sanction the proposals, or refuse to sanction them, or return them to the Local Government for further consideration.

(*7*) When the proposals of a committee have been sanctioned by the Local Government, or by the Local Government and the Governor General in Council, as the case may be, the committee may, at a special meeting, direct the imposition of the tax in accordance with such proposals.

(8) In giving such direction the committee shall fix a date on which the tax shall come into force:

Provided that—

(a) a tax shall not come into force until its imposition has been notified:

(b) a tax shall not come into force less than three months from the date of the meeting at which its imposition is directed:

(c) a tax leviable by the year shall come into force on the first day of January or on the first day of April or on the first day of July or on the first day of October in any year; and if it does not come into force on the first day of January, then the tax shall be leviable to the extent of one-twelfth of its annual amount for each month of the period from the date on which it comes into force till the first day of January next ensuing; and from the latter date it shall be leviable in full for the year thereon commencing.

(*9*) A notification of the imposition of a tax under this Act shall be conclusive evidence that the tax has been imposed in accordance with the provisions of this Act.

Power for Local Government to suspend levy of tax.

48. (*1*) If at any time it appears to the Local Government, on complaint made or otherwise, that any tax imposed under the foregoing sections is unfair in its incidence or that the levy thereof or of any part thereof is injurious to the interests of the general public, it may require the committee to take within a specified period measures to remove the objection; and, if within that period the requirement is not complied with to the satisfaction of the Local Government, the Local Government may by notification suspend the levy of the tax or of such part thereof until the objection has been removed.

(*2*) The Local Government may at any time by notification rescind any such suspension.

Taxes not invalid for defect of form.

49. No tax imposed under this Act shall be invalid merely for defect of form; and it shall be enough in any such tax on property or any assessment of value for the purpose of any such tax if the property taxed or assessed is so described as to be generally known; and it shall not be necessary to name the owner or occupier thereof.

Taxes when payable.

50. (*1*) Any tax imposed under the foregoing sections and payable periodically shall be payable on such dates and in such instalments (if any) as the committee with the previous sanction of the *District Magistrate* may, by rule, from time to time direct.

(2) A tax payable for a year or any other period is said in this Act to be payable by instalments when the period is divided into definite parts in respect of each of which a corresponding part of the tax is payable; but mere payment of such a tax in portions does not constitute payment by instalments unless the portions throughout the period correspond to similar portions of time.

Receipts to be given.

51. For all sums paid on account of any tax under this Act a receipt, stating the amount and the tax on account of which it is paid, shall be given by the person receiving the same, on request by the person making the payment.

Appeals against taxation.

52. (*1*) An appeal against the assessment or levy of any tax under this Act shall lie to the *District Magistrate or to such other officer as may be empowered by the Local Government in this behalf:*

Provided that, when the District Magistrate or such other officer as aforesaid is a member of the committee, the appeal shall lie to the Commissioner of the Division.

(*2*) If, on the hearing of an appeal under this section, any question as to the liability to, or the principle of assessment of, a tax arises, on which the officer hearing the appeal entertains reasonable doubt, he may, either of his own motion or on the application of any person interested, draw up a statement of the facts of the case and the point on which doubt is entertained, and refer the statement with his own opinion on the point for the decision of the Chief Court.

(*3*) On a reference being made under sub-section (*2*) the subsequent proceedings in the case shall be, as nearly as may be, in conformity with the rules relating to references to the High Court contained in Chapter XLVI of the Code of Civil Procedure.

if an appeal is wholly rejected, the officer deciding the appeal may order the appellant to pay the reasonable costs of the committee in defending the appeal if the appeal appears to have been made without reasonable or proper ground, but not otherwise;

if the appeal is partly accepted and partly rejected, no costs shall be allowed to either party.

(5) Costs awarded under this section to the committee shall be recoverable by the committee as though they were arrears of a tax due from the appellant or under the provisions of section 53, sub-section (3).

(6) If for ten days the committee fails to pay any costs awarded to an appellant, the officer awarding the costs may order the person having the custody of the balance of the municipal fund to pay the amount.

Limitation of appeal.

Provided that an appeal may be admitted after the expiration of the period prescribed therefor by this section if the appellant satisfies the officer before whom the appeal is preferred that he had sufficient cause for not presenting the appeal within that period.

(2) No appeal shall be entertained—

unless the appellant has paid all municipal taxes due from him to the committee other than the tax or portion of the tax in regard to which the appeal is preferred, and

unless before the appeal is preferred the appellant has deposited with the committee a sum equal in amount to the tax or portion of the tax which is in dispute and in regard to which the appeal is made.

(3) After the appeal is decided the committee may apply any sum deposited with them under sub-section (2), first, in payment of any municipal taxes then due or claimable from the appellant, and, secondly, in payment of any costs awarded against the appellant by the officer deciding the appeal. If thereafter there is any balance, it shall be returned to the appellant on his application.

54. No objection shall be taken to any valuation or assessment, nor shall the liability of any person to be assessed or taxed be questioned, in any other manner or by any other authority than in this Act is provided.

Taxation not to be questioned except under this Act.

Publication of notice of assessments.

57. (1) The committee shall at the same time give public notice of a time not less than one month from the publication of the notice, when it will proceed to revise the valuation and assessment and in all cases in which any property is for the first time assessed, or the assessment thereof is increased, it shall also give notice thereof to the owner or occupier of the property.

Public notice of time fixed for revising assessment-list.

(2) All objections to the valuation and assessment shall be made in writing before the time fixed in the notice or orally or in writing at that time.

178. (*1*) When the Commissioner, after due enquiry, is satisfied that a committee of the first class has made default in performing any duty imposed upon it by or under this Act, he may by an order in writing, fix a period for the performance of that duty; and, if it is not performed within the period so fixed, he may appoint some person to perform it, and may direct that the expense of performing it shall be paid, within such time as he may fix, by the committee to that person.

(*2*) If the expense is not so paid, the Commissioner may make an order directing the person having the custody of the balance of the municipal fund to pay the expense, or so much thereof as is, from time to time, possible, from that balance, in priority to all other charges against the same.

(*3*) The *District Magistrate* shall have the same powers with respect to committees of the second class as are by this section conferred upon the Commissioner with respect to committees of the first class.

Action of *District Magistrate* or Commissioner to be immediately reported.

179. When the *District Magistrate* makes any order under section *176*, section *177* or section *178*, he shall forthwith forward to the Local Government through the Commissioner, and, when the Commissioner makes any order under section *176* or section *178*, he shall forthwith forward to the Local Government, a copy thereof, with a statement of the reasons for making it, and with such explanation, if any, as the committee may wish to offer; and the Local Government may thereupon confirm, modify or rescind the order.

Powers of Local Government and its officers over committees.

180 (*1*) The Local Government, and *the* Commissioners and *District Magistrates* acting under *the orders of the Local Government, shall be bound* to require that the proceedings of committees shall be in conformity with law *and with the rules in force under any enactment for the time being applicable to the Punjab generally or to the areas over which the committees have authority.*

(List of places referred to in section 42.)

SIMLA.	*DALHOUSIE.*
DHARAMSALA.	*MURREE.*

STATEMENT OF OBJECTS AND REASONS.

THE Punjab Municipal Act, XIII of 1884, has been found by experience to be in some respects inconvenient and defective. The procedure required by it is sometimes excessively elaborate in regard to the smaller municipalities, while in some cases (more especially in the hill municipalities) the Act gives no powers with respect to certain matters of building, social convenience and sanitation which stand in need of proper regulation.

2. His Honour the Lieutenant-Governor of the Punjab considers therefore that the Act should be amended, and further that the amendments should, for the convenience as well of persons having to administer, as of persons interested in the administration of, municipalities in the Punjab, be incorporated in a Bill consolidating the proposed new law with the old.

The Governor General in Council concurs with His Honour; and this Bill has been prepared accordingly, new or altered matter being printed in italics.

3. *Section 5.*—The condition imposed by section 5 of the Act of 1884, that a committee must not consist of less than six members, is unnecessary, and has proved inconvenient in small places like Kalka. Even in large places small committees may occasionally be necessary.

4. *Sections 7, 8 and 9.*—The main object of these sections is to secure the prompt introduction of changes from appointment to election and *vice versâ* when such changes seem to the Local Government to be desirable.

5. *Section 16.*—The sub-sections added to this section are intended to avoid needless trouble. At present an *ex officio* president or vice-president has to be elected or appointed again and again as often as the incumbent of the office changes.

6. *Sections 19, 20 and 50.*—The main object of the alterations in these sections is to decentralize some of the minor apparatus of municipal administration so as to prevent unnecessary references to the Local Government.

7. *Sections 43 and 111-119.*—Section 43 taken with sections 111 to 119 (both inclusive) are intended to regulate the municipal scavenging of private dwellings, and replace sections 40 and 101 of the present Act. The law as it now stands has been found to be unworkable. It involves repeated negotiations with a succession of individual occupiers, and any arrangements made by the committee can at any time be disorganized by private dissent. Moreover, the phrase "duties usually performed by sweepers" is of very vague and uncertain import. It might very well be held to include duties of a domestic and private nature which the municipal committee could not possibly undertake. And, if this were held to be the case, the present law on that ground alone would become ineffectual. The new proposals limit municipal scavenging to what is practically possible and provide for the committee undertaking it without being compelled to procure individual assents, though not without being compelled to consider possible individual grievances. Attempts are also made to provide adequate safeguards for agriculturists wishing to secure their own manure, and for the caste or customary rights by which guilds of sweepers in some towns claim the exclusive right of scavenging the houses of particular quarters. These rights are very inconvenient obstacles in the way of proper sanitation, but the new proposals will nevertheless protect them so long as the correlative duties are adequately discharged.

8. *Section 45.*—Sub-section (*8*) of this section is intended to make section 42 of the present Act more generally convenient. It has been held that the year mentioned in that section must begin on the 1st of January. The amendment of section 58 is a corollary of section 45, sub-section (*8*).

9. *Sections 52 and 53.*—The additions to these sections are intended to remedy grievances which have been complained of by taxpayers in Simla. Similarly, section 61 (with which should be read sub-section (*2*) of section 50) is intended to remedy ascertained defects in the procedure as to remissions in whole or in part of assessed taxation.

10. *Sections 69 and 70.*—The sections supply what is believed to be an omission in the present Act as to punishment for octroi frauds. It also compels inhabitants of a municipality to furnish necessary information as to taxable liability. The want of this power in the present Act has been seriously complained of in Delhi.

11. *Section 72.*—The addition to clause (*k*) of sub-section (*2*) is intended to provide for expenditure out of the municipal fund on such objects as an Imperial census or the celebration of a Jubilee or other like object.

12. *Section 73.*—This section provides for the payment of a municipal president. A paid president is to be appointed for Simla.

13. *Section 76.*—Clause (*d*), as amended, will give to the committee the property in refuse deposited in municipal receptacles. Any other arrangement is manifestly impossible, but the want of an express legal provision recently led to the abandonment of a reformed system of conservancy in one of the towns of the Province.

14. *Section 92.*—This section re-enacts section 88 of the present Act with some important changes. In the first place, no compensation is to be given for prohibiting the erection of new buildings. At present compensation is payable, and the power to prohibit is therefore nugatory. At the same time, however, section 151 of the Bill gives an appeal against prohibition of erection. In the second place, the law as it at present stands compels the committee to take action within one month of receipt of notice of intention to build. But it prescribes no time for the submission to the committee of the plan of the buildings and prescribes no conditions which the plan must fulfil. It is therefore comparatively easy to evade the committee's jurisdiction under this section. The new proposals practically require the notice to be accompanied by the plan and allow the committee, with the sanction of the Local Government, to prescribe what the plan shall contain.

15. *Sections 93, 104 and 105.*—These are new proposals intended principally to provide safeguards in the bazars of hill municipalities which are peculiarly exposed to risks from fire. Section 105, however, will be of general application.

16. *Section 100.*—This section is intended to provide for the proper disposal of dead animals.

17. *Section 120.*—This section is the corollary of and sanction for section 105.

18. *Section 137.*—This section was framed in consequence of representations from Simla. It is a new proposal, and is principally intended to give power to regulate the trade

in food so far as may be necessary in any case to secure its cleanly preparation, and to exclude from certain thoroughfares offensive shops, such as those of butchers or spirit-sellers. The section is mainly, though not exclusively, intended for use in hill municipalities.

19. *Sections 138-143.*—These are new proposals to diminish danger from mad dogs and from infectious diseases. They are adapted from the City of Bombay Municipal Act, 1888.

20. *Section 145.*—This section is new, and in some respects follows the principle of the Darjeeling Act, V of 1883 (B. C.), for the regulation of hired coolies and vehicles in a hill municipality.

21. *Sections 146, 147, 151 and 170.*—Sections 146 and 147 are required in consequence of the extended power of rule-making given to committees by the Bill. Similarly, as the Bill gives larger powers to committees, a somewhat larger power of appeal against their decisions is given by sections 151 and 170.

22. *Sections 171-174.*—These sections provide for the establishment and working of fire-brigades.

23. *Section 183.*—A sub-section has been added giving to the Local Government in more express terms a power to deal generally with corrupt practices or intimidation at municipal elections.

24. *Sections 185 and 186.*—Section 185 is intended to enable the committee to institute prosecutions by an easier process than that of the present law, which in many cases is practically unworkable. Similarly, section 186 is intended to make ordinary sanitary police more effective.

25. *Section 202.*—This section is an adaptation of the provisions of laws passed by the Bombay and Bengal Councils for the prevention of a sweeper strike.

26. Lastly, sections 209 to 213 (both inclusive) are intended to provide for such sanitary and other measures as may be possible in small towns which are not fit to be treated as municipalities, but in which improved arrangements are often extremely desirable. Kalka is an excellent instance of one such place.
